National Diabetes Prevention Program Data Entry Template

Use this spreadsheet to enter data and submit it to EIRH every six months from the date of your first NDPP Core session.
If submitting data to the CDC, delete all worksheets other than the CDC Data worksheet and save as CSV.
This file contains 3 sheets [Intro, CDC Data, and Example CDC Data] that are viewed by clicking the appropriate tab in the lower-left corner.
You must enter data on the CDC Data sheet. See below for further detail.

On the CDC Data sheet, use multiple rows (horizontal) per participant with each row being a different date.

Refer to the following sources for help:
- CDC Recognition Program Standards and Operating Procedures (www.cdc.gov/diabetes/prevention/recognition)
- Common Ground (http://lccommonground.org/index.cfm/learn/resources/submitting-dprp-data-dttac/)
