## ***Every Child Ready for Math***

### ***A Pre-Conference Event***

*Lee Pesky Learning Center* is offering a math training for preschool and early care educators. The focus will be on helping teachers create rich math experiences that also foster language skills. This research-based class incorporates the recommendations of NCTM and NAEYC. It is designed for educators who work with three to five year olds.

Teachers will:

- **learn** how to help children develop early number concepts and reasoning skills related to space, shape, and measurement.
- **receive** information and math materials for their centers along with parent materials.

**DATE:**

November 17, 2010

**TIME:**

9:00-3:00 p.m. (lunch on your own)

**LOCATION:**

Cambria Suites Hotel, 2970 Elder Street, Boise (near the airport)

**REGISTER:**

Contact Jeri Jessup at [jjessup@LPLearningCenter.org](mailto:jjessup@LPLearningCenter.org) or 208-577-1101

This training is funded by the US Department of Education so there is no cost. However, to participate in this training you must be actively working with children ages three to five.
