

January 2015

Change is Coming

For the following WIC participants:

◆ INFANTS ◆ CHILDREN ◆ BREASTFEEDING WOMEN ◆

Participants will only have to apply for the WIC program once a year

This change means:

- ◆ Children will have a longer time between applications (12 months instead of 6).
- ◆ Required documents (income, identification, residency) will only be asked for every 12 months.
- ◆ All participants will have a visit in the middle of the 12-month period to follow up on growth, ask nutrition questions and talk about nutrition education.

Some appointment times may be longer due to this change.

If you have questions or concerns, call your local WIC clinic
