**Health care providers, laboratorians, hospital administrators, school administrators, and persons in charge of food establishments must report the following diseases and conditions to their local public health district or the Epidemiology Program within the Bureau of Communicable Disease Prevention per IDAPA 16.02.10. Reports must be made within three (3) working days of identification or diagnosis unless otherwise noted below.
For a complete list, see Idaho Reportable Diseases (IDAPA 16.02.10): https://adminrules.idaho.gov/rules/current/16/160210.pdf

* Suspected cases are also reportable
† Cases are reportable by labs only

Forwarding of isolates, suspected select agents, or reactive (positive) clinical specimens to Idaho Bureau of Laboratories is strongly encouraged.

What to Report:
All reports are confidential and must include:
 • Disease or condition reported
 • Patient’s name, age, date of birth, sex, address (including city and county), phone number, and date of specimen collection, if applicable
 • Physician’s name, address, and phone number

When to Report
Immediate Reports / Emergency Notifications
During business hours: Phone or fax all reports.
After hours: State Communications public health paging system (State Comm) at (800) 632-8000. A public health official will be notified.
1-Day Reports (required within 1 working day)
During business hours: Phone, fax, or via electronic reporting system.
After hours: If the reporting period falls on a weekend or holiday report to your public health district or State Epidemiology Program the next working day or you may call State Comm as above.
