DESCRIPTIVE SUMMARY: The following is a statement in nontechnical language of the substance and purpose of the intended negotiated rulemaking and the principle issues involved:

These rules govern food safety standards in Idaho which currently are based on the 2001 FDA Food Code. The Department intends to update these rules to be based on current industry practices provided in the 2013 FDA Food Code. Negotiations are being held for input from businesses within Idaho's retail food establishments, that will bring the Idaho Food Code to current best practices with the 2013 FDA Food Code. The Department intends to negotiate rules regarding the standards for management level staff and their knowledge of food safety practices, communicable disease prevention, and control within food establishments as provided in the 2013 FDA Code.

There will be separate negotiated rulemaking meetings to discuss the "Cottage Foods Industry" or "Home Kitchen Operations" and how Idaho addresses these types of business models to provide a safe food supply to Idaho citizens. The Department intends to solicit information from stake holders to implement consistent standards and interpretations throughout Idaho.
