Revised February 2019
WHY IS THERE A FOOD CODE?
Foodborne illness in the United States is a major cause of personal distress, preventable death, and avoidable economic burden. It has been estimated that foodborne diseases cause approximately 48 million illnesses, 128,000 hospitalizations, and 3,000 deaths each year.

Epidemiological outbreak data repeatedly identify five major risk factors related to EMPLOYEE behaviors and preparation practices in retail and FOOD SERVICE ESTABLISHMENTS as contributing to foodborne illness:

- Improper holding temperatures,
- Inadequate cooking of FOODS, such as undercooking EGGS,
- Contaminated EQUIPMENT,
- FOOD from unsafe sources, and
- Poor personal hygiene

The FOOD Code addresses controls for risk factors and further establishes five key public health interventions to protect CONSUMER health. Specifically, these interventions are: demonstration of knowledge, EMPLOYEE health controls, controlling hands as a vehicle of contamination, time and temperature parameters for controlling pathogens, and the CONSUMER advisory. The first two interventions are found in Chapter 2 and the last three in Chapter 3.

WHO IS RESPONSIBLE FOR FOOD SAFETY?
It is a shared responsibility of the FOOD industry and the government to ensure that FOOD provided to the CONSUMER is safe and does not become a vehicle in a disease outbreak or in the transmission of communicable disease. This shared responsibility extends to ensuring that CONSUMER expectations are met and that FOOD in unADULTERATED, prepared in a clean environment, and honestly presented.

Accordingly, the provisions of the FOOD Code provide a system of prevention and overlapping safeguards designed to minimize foodborne illness, as well as ensure EMPLOYEE health, industry manager knowledge, safe FOOD, nontoxic and cleanable EQUIPMENT, and acceptable levels of SANITATION on FOOD ESTABLISHMENT PREMISES; and promote fair dealings with the CONSUMER.

WHAT ARE UNIFORM STANDARDS?
The FOOD Code provides well-written, scientifically sound and up-to-date standards that are recognized as an advantage by industry and governmental officials. Industry conformance with acceptable procedures is much more likely where regulatory officials “speak with one voice” about what is required to protect the public health, why it is important, and which alternatives for compliance may be accepted. It is useful to business in that it provides accepted standards that can be applied in training and quality assurance programs.

INFORMATION TO ASSIST THE USER

CHAPTER THROUGH SUBPARAGRAPH:
Food Code provisions address essentially four areas: personnel (Chapter 2), food (Chapter 3), equipment/facilities/supplies (Chapter 4, 5, 6, 7), and compliance and enforcement (Chapter 8). The structural nomenclature of the document is as follows:

- Chapter 9
- Part 9-1
- Subpart 9-101
- Section (§) 9-101.11
- Paragraph (¶) 9-101.11(A)
- Subparagraph 9-101.11(A)(1)
INFORMATION IN ITALICS:
Portions of some sections are written in *italics*. The provisions are not requirements, but are provided to convey relevant information about specific exceptions and alternative means for compliance.

CRITICAL, NONCRITICAL, AND POTENTIALLY-CRITICAL ITEM
Requirements contained in the Food Code are presented as being in one of three categories of importance: CRITICAL ITEMS; POTENTIALLY-CRITICAL ITEMS (i.e., those that may or may not be critical; depending on the circumstances); and NONCRITICAL ITEMS.

A bold, superscripted letter *P* after a tagline (which is the language immediately following a section number that introduces the subject of the section) indicates that all of the provisions within that section are CRITICAL unless otherwise indicated, as follows:

Any provisions that are POTENTIALLY-CRITICAL ITEMS are followed by the bold, superscripted letter *P*. Any unmarked provisions within a section that has a bold, superscripted letter *P* tagline are CRITICAL ITEMS. All provisions following a tagline that is not marked with a *P* are NONCRITICAL ITEMS.

DEFINED WORDS IN CAPS:
Defined words and terms are capitalized in the text of the Food Code chapters to alert the reader to the fact that there is a specific meaning assigned to those words and terms and that the meaning of a provision is to be interpreted in the defined context. A concerted effort was also made to capitalize all forms and combinations of those defined words and terms that were intended to carry the weight of the definition.

IDAHO CHANGES TO THE FOOD CODE:
Additions, modifications and deletions added by the State of Idaho are preceded by the letters IDAPA and the section numbers from the Idaho Administrative Rules 16.02.19 – Food Safety and Sanitation Standards for Food Establishments *(The Idaho Food Code).*

IDAPA 16.02.19.831 SUMMARY SUSPENSION OF LICENSE
The REGULATORY AUTHORITY may temporarily suspend a LICENSE to operate a FOOD ESTABLISHMENT when it determines that an IMMINENT HEALTH HAZARD exists.

01. Reasons a Summary Suspension May be Issued.
When a FOOD ESTABLISHMENT does not follow the principles of FOOD safety, or FOODborne illness is found, or an environmental HAZARD exists and public safety cannot be assured by the continued operation of the FOOD ESTABLISHMENT, a summary suspension may be issued. The following are some reasons the REGULATORY AUTHORITY may determine a summary suspension is necessary:

(a) Inspection of the FOOD ESTABLISHMENT shows CRITICAL VIOLATIONS;
(b) Examination of FOOD shows the FOOD is unsafe;
(c) Review of records shows that proper steps for FOOD safety have not been met;
(d) EMPLOYEES working with FOOD are suspected of having a disease that is communicable through FOOD; or
(e) An IMMINENT HEALTH HAZARD exists.

02. Priority Notice is Not Required for a Summary Suspension.
Upon providing written notice of summary suspension to the LICENSE HOLDER or PERSON IN CHARGE, the REGULATORY AUTHORITY may suspend a FOOD ESTABLISHMENT’S LICENSE without prior warning, notice of hearing, or hearing.

03. Written Notice of Summary Suspension.
The REGULATORY AUTHORITY must give the LICENSE HOLDER or PERSON IN CHARGE written notice when suspending a LICENSE. The notice must include the following:

(a) The specific reasons or violations the summary suspension is issued for with reference to the section of the 2013 FOOD Code which is in violation;
(b) A statement notifying the FOOD ESTABLISHMENT its LICENSE is suspended and that all FOOD operations are to cease immediately;
(c) The name and address of the REGULATORY AUTHORITY representative to whom a written request for re-inspection can be made and who can certify the reasons for the suspension have been eliminated;
(d) A statement notifying the FOOD ESTABLISHMENT of its right to an information hearing with the REGULATORY AUTHORITY upon submission of a written request within fifteen (15) days of receiving the summary suspension notice; and
(e) A statement informing the FOOD ESTABLISHMENT that proceedings for revocation of the LICENSE shall be initiated by the REGULATORY AUTHORITY after suspension, if violations are not immediately corrected.
(f) The right to request an appeal to the DEPARTMENT as provided in Section 861 of these rules.

04. Length of Summary Suspension
The suspension will remain in effect until the conditions cited in the notice of suspension no longer exist and their elimination has been confirmed by the REGULATORY AUTHORITY during a re-inspection.

05. Re-inspection of Food Establishment
The REGULATORY AUTHORITY will conduct a re-inspection of the FOOD ESTABLISHMENT within two (2) working days of receiving a written request stating the conditions for the suspension no longer exist.

06. Reinstatement of License
The REGULATORY AUTHORITY will immediately reinstate the suspended LICENSE if the re-inspection
determines the public health HAZARD no longer exists. The REGULATORY AUTHORITY will provide a written notice of reinstatement to the LICENSE HOLDER or PERSON IN CHARGE.

1008, Idaho Code. These statutes provide for fines or terms of imprisonment that may be sought through the court of competent jurisdiction.

02. Civil Proceedings. Civil enforcement actions may be commenced and prosecuted in the district court in the county where the alleged violation occurred, according to Sections 56-1009, and 56-1010, Idaho Code. The person who is alleged to have violated any enabling statute, rule, federal regulation, license or order may be charged in the court proceeding. This action is brought to compel compliance with these rules, regulations, license or order for relief or remedies authorized in the rules.

03. Injunctive Relief. In addition to other remedies provided by law, Section 56-1009 allows for a search warrant to gain access and injunctions to be issued in the name of the state against any person or entity to enjoin that person or entity from violating these rules, regulations, statues or administrative orders.
