Available in English, Chinese, Korean, Vietnamese, Tagalog, Laotian, Spanish, Hmong, Russian

Hospital Discharge Packet

Plastic zip-up pouch containing educational materials for HBsAg-positive women to be distributed after delivery upon discharge from the hospital. Packet includes educational brochures, notes/reminders for pediatricians and the mother, and a chronic hepatitis B monitoring card for the infected mother. Available in English, Chinese, and Vietnamese.

Hepatitis B Diagnosis Packet

Envelope containing educational materials for HBsAg-positive women to be distributed during prenatal visits by the OB/Gyn. The packet includes educational brochures, reminder note to the clinic/hospital, provider referral form to the Perinatal Hepatitis B Prevention Program, and a mini postcard (referral to HepBMoms website). Available in English, Chinese, and Vietnamese.

Provider Education Poster

A poster that outlines the steps that HBsAg-positive pregnant women should take to protect their newborns against hepatitis B and liver cancer. Designed to be posted in hospital and clinic settings to educate providers.

Nurse Pocket Card

A pocket-sized card that summarizes ACIP and CDC guidelines to preventing hepatitis B transmission in babies. Designed for nurses and providers

HepBMoms postcard

A mini postcard that includes a brief description of HepBMoms. Designed to refer patients and providers to the website

Jade Monitoring and screening card

A card to keep track of HBV and liver cancer test results. Designed for use by HBsAg-positive patients

The materials included in this rectangle are exclusively Hep B Moms materials, designed specifically with prevention of perinatal Hep B transmission in mind.
