**September 27–28, 2011  
Hotel Murano  
Tacoma, Washington**

## **Epidemiology & Prevention of Vaccine-Preventable Diseases Course**

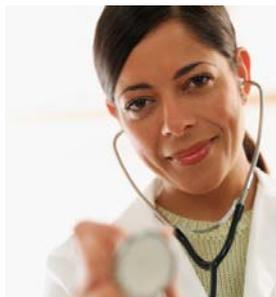

Presented by the Centers for Disease Control and Prevention  
National Center for Immunization and Respiratory Diseases

### **Target audience:**

Local public health staff, physicians, nurses, immunization providers, and program managers who want the most comprehensive and most current immunization knowledge base. A basic knowledge of biology and immunization is a prerequisite.

Sponsored by the Washington State Department of Health, the Immunization Action Coalition of Washington, and the National Network of Immunization Nurses and Associates

**Mark your calendar to attend this comprehensive training**

Learn about:

- Vaccines
- Vaccination principles
- Vaccine-preventable diseases

Hear current immunization recommendations and get your questions answered by national vaccine experts.

Continuing education credits will be available.

Local public health staff may also attend a half day immunization update on September 26.
