Introduction

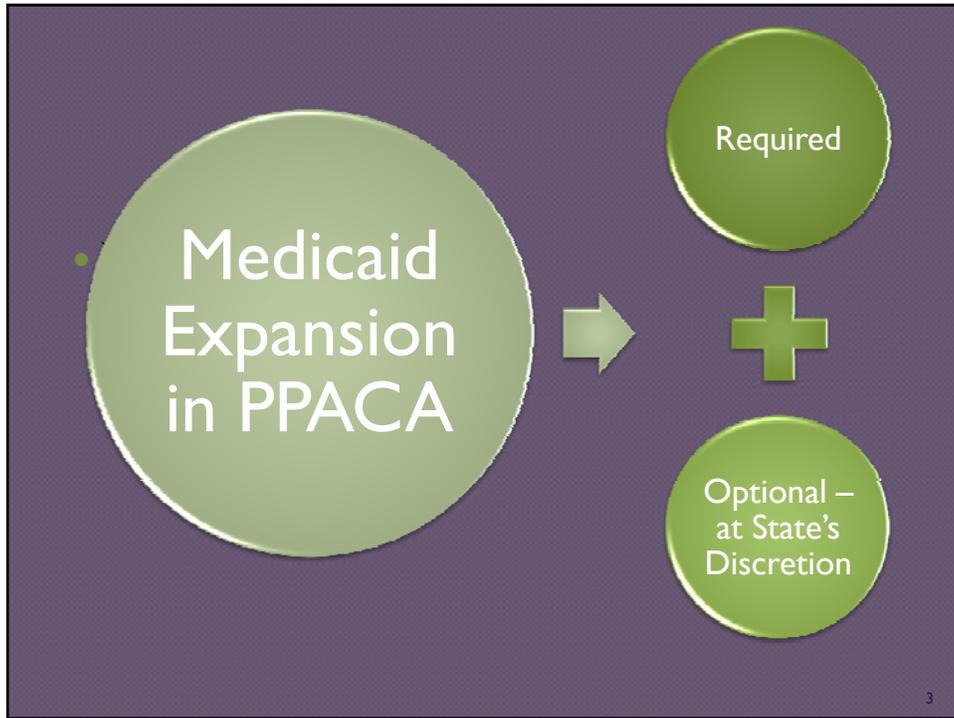

- Social justice and compassion should guide the healthcare system in Idaho
- Access to healthcare should not depend on where a person works, how much a family earns, or where a person lives

"The credibility of a healthcare system is not measured solely by efficiency, but above all by the attention and love given to the person, whose life is always sacred and inviolable."

-Pope Francis

2 Idahoans die each week because they do not have health insurance.

2

Who are the “medically indigent”?

- Working Idahoans
- Self-employed & Small Business Employees

Annual Cost of Living *

* U.S. Bureau of Labor Statistics - averages are based on 2.6 person households

- **Idahoans Living with a Mental Illness**

- **21%** of uninsured Idahoans live with a mental illness

5

What is the “coverage gap”?

- Idaho currently restricts Medicaid coverage
- Adults age 19-64 who cannot qualify include:
 - Non-disabled without children
 - Non-disabled with children making over 20% of poverty
- Exchange premium assistance available to families within 100 - 400% of FPL
 - Subsidy assistance NOT available below 100% FPL

Idaho minimum wage = \$7.25/hr or \$15,080/yr

2013 Federal Poverty Limits	<100% FPL	100% to 125% FPL	125% to 138% FPL
Annual Income - Individual	\$0 - \$11,490	\$11,491 - \$14,362	\$14,363 - \$15,856
Annual Income - Family of 4	\$0 - \$23,550	\$23,551 - \$29,437	\$29,438 - \$32,499
