RE: FACILITY FIRE SAFETY & CONSTRUCTION SURVEY REPORT COVER LETTER

Dear Mr. Hruza:

On September 26, 2018, a Facility Fire Safety and Construction survey was conducted at Valley Vista Care Center of St Maries by the Bureau of Facility Standards/Department of Health & Welfare to determine if your facility was in compliance with State Licensure and Federal participation requirements for nursing homes participating in the Medicare and/or Medicaid programs. Your facility was found to be in substantial compliance with Federal regulations during this survey.

Enclosed is a Statement of Deficiencies/Plan of Correction, Form CMS-2567, which states that the facility complies with the requirements of CFR 42, 483.70(a) of the federal requirements. This form is for your records only and does not need to be returned.

Thank you for the courtesies extended to us during the survey. If you have any questions, please contact this office at (208) 334-6626, option 3.

Sincerely,

Nate Elkins, Supervisor
Facility Fire Safety and Construction

<td>The original construction of the facility was a single-story, Type V (111) building with a two-story addition and renovation completed in 1997. The two-story addition includes an atrium space on the lower level with railed openings overlooking from the floor above. All openings to the atrium are protected with drop down fire doors. In 2000 the Behavior Care Unit, a secured unit addition was completed. The facility is divided into five smoke compartments, is fully sprinklered with corridor smoke detection and a manual fire alarm system. There are multiple exits to grade, and an Essential Electrical System (EES) supplied by a natural gas powered, on-site automatic generator. Currently the facility is licensed for 74 SNF/NF beds, and had a census of 64 on the date of the survey. The facility was found to be in substantial compliance during the annual fire/life safety survey conducted on September 26, 2018. The facility was surveyed under the LIFE SAFETY CODE, 2012 Edition, Existing Health Care Occupancy, in accordance with 42 CFR 483.70, and 42 CFR 483.80. The surveyor conducting the survey was: Linda Chaney, Health Facility Surveyor, Facility Fire Safety and Construction</td>

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

E 000 Initial Comments

The original construction of the facility was a single-story, Type V (111) building with a two-story addition and renovation completed in 1997. The two-story addition includes an atrium space on the lower level with railed openings overlooking from the floor above. All openings to the atrium are protected with drop down fire doors. In 2000 the Behavior Care Unit, a secured unit addition was completed. The facility is divided into five smoke compartments, is fully sprinklered with corridor smoke detection and a manual fire alarm system. There are multiple exits to grade, and an Essential Electrical System (EES) supplied by a natural gas powered, on-site automatic generator. Currently the facility is licensed for 74 SNF/NF beds, and had a census of 64 on the date of the survey.

The facility was found to be in substantial compliance during the Initial Emergency Preparedness Survey conducted on September 26, 2018. The facility was surveyed under the Emergency Preparedness Rule established by CMS, in accordance with 42 CFR 483.73.

The Survey was conducted by:

Linda Chaney
Health Facility Surveyor
Facility Fire Safety & Construction
