

ICF/ID Disaster Preparedness Plan

Name: _____ Facility: _____

Does the Governing Body have effective preparedness plan? (W104): Yes No
 (See below for specific plan requirements)

Have staff been trained on the plan? (W442): Yes No

Has a disaster drill been conducted at least annually? (W445): Yes No

Was a complete written evaluation of the drill kept and prompt corrective action taken for any identified problems? (W448 and W449): Yes No

Has the facility conducted a hazard vulnerability analysis and planned for the most likely hazards? (See also the Idaho Hazards Quick list). Is there documentation of a hazard analysis that includes local site specific hazards such as nearby factories, highways, rail lines, rivers, etc.)?
Comments:
Does the plan include Hazard mitigation (activities taken to eliminate or reduce the probability of the event, or reduce the event's severity or consequences)? Does the mitigation address individuals, staff and others?
Comments:
Does the plan include Preparedness (how the ICF/ID will meet the needs of individuals, staff and others present in the ICF/ID if essential services break down as a result of a disaster)? How is staff trained on the plan? Has coordination or attempts to coordinate with local and State authorities occurred?
Comments:
Does the plan include disaster Responses (activities taken for impending treats, during and after a disaster to address the immediate and short-term effects of the emergency)?
Comments:
Does the plan include disaster recovery activities (activities implemented during and after the ICF/ID's response that are designed to return the ICF/ID to its usual state)?
Comments:
