*Funding for this project is awarded through a partnership of the Centers for Medicare and Medicaid Services and the North Carolina Division of Health Service Regulation.*

Enjoy our special bonus feature, *Gowns and Gloves*, a tongue-in-cheek soap opera series that illustrates important infection prevention concepts in a fun and entertaining way!

**The Statewide Program for Infection Control and Epidemiology (SPICE)** promotes prevention and control of health care associated infections in North Carolina and beyond by providing evidence based education and consultation across the healthcare spectrum.

## Enhanced Education of Infection Prevention in Nursing Homes

**FREE**, ON-LINE INFECTION PREVENTION EDUCATION FOR **ALL** NURSING HOME STAFF!

Featuring...

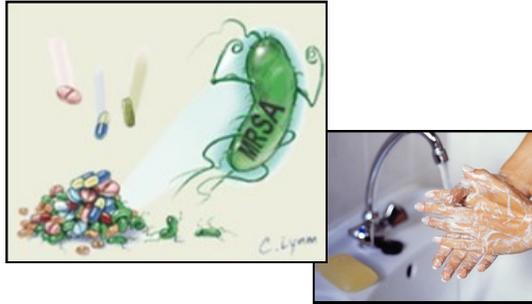

Four educational modules are designed to make an impact on infection prevention and control in your facility.

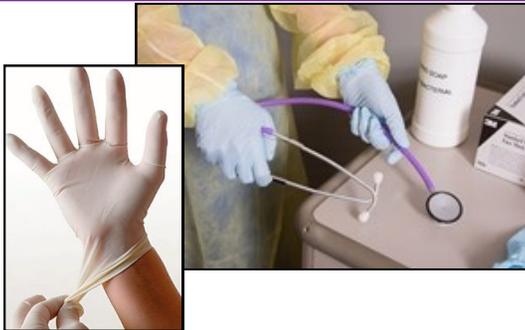

Actors create a drama, *Gowns and Gloves*, about stopping the spread of infection.

Videos using professional actors to educate *and* entertain are dispersed throughout the four modules. The modules are easy to access and simple to navigate.

#### MODULE 1:

Understanding *gowns & gloves* **Antibiotic Resistant Bacteria** and how to stop bad bugs from spreading. (February 2013)

#### MODULE 2:

Review the *gowns & gloves* types of **Isolation Precautions** and when to use them. (Spring 2013)

#### MODULE 3:

Learn how to protect your residents and yourself with **Safe Injection Practices**. (Fall 2013)

#### MODULE 4:

Learn best practices for **Environmental Disinfection**. (Spring 2014)
