Accessing ePOC

• **Individual Access**  Requesting access to CMS systems requires two steps to obtain two separate login IDs.

• **Step 1:**
  - Use the **CMSNet Online Registration** application to request a CMSNet User ID. The CMSNet ID is needed to access secure CMS sites (e.g., submissions pages/reports) unless an otherwise secure connection has been established.
  - [CMSNet Online Registration Instructions](#) [PDF 444 KB]

• **Step 2:**
  - Use the **QIES online User Registration tool** to obtain a QIES Submission ID. Once you have registered for a CMSNet User ID, you will receive an email from MDCN.mco@palmettogba.com containing your login information. Using this information you will connect through the 'CMS Secure Access Service'.
  - Once securely connected, select the 'CMS QIES Systems for Providers' link to access the QIES online 'User Registration' tool. New users must utilize the online 'User Registration' tool to obtain a QIES Submission login ID (the only exception is Multiple Facility [aka Corporate] accounts).
  - The [Steps to Access ePOC Application](#) document contains detailed information on accessing the ePOC and ASPEN Web applications.

• **Please NOTE:** CMS allows a total of four ePOC user accounts

• **Existing MDS Account:** If you already have an MDS account for your facility and would like to add ePOC access, you may use Access Update to do so. Refer to the [Steps to Access ePOC Application](#) document for further instructions.

Start Up

• Once log-on credentials have been obtained you must contact the State Agency
• State Agency will then “activate” ePOC for that facility
• ePOC survey history begins with the first survey after initial activation

Facility Instructions

Nursing Home Facility

Welcome to the Centers for Medicare and Medicaid Services Facility Site for electronic transmission of the Plan of Correction. The information submitted, following approval by the appropriate state agency, may be placed on a public web site in order to provide consumers with information about the facility.

Acceptable Plan of Correction

The plan of correction serves as the facility’s allegation of compliance and, without it, CMS and/or the State have no basis on which to verify compliance. A plan of correction must be submitted within 10 calendar days from the date the facility receives its Form CMS-2567. If an acceptable plan of correction is not received within this timeframe, the State notifies the facility that it is recommending to the RO and/or the State Medicaid Agency that remedies be imposed effective when notice requirements are met. The requirement for a plan of correction is in 42 CFR 488.402(d). Further, 42 CFR 488.456(b)(ii) requires CMS or the State to terminate the provider agreement of a facility that does not submit an acceptable plan of correction.

Except in cases of past noncompliance, facilities having deficiencies (other than those at scope and severity level A) must submit an acceptable plan of correction. The requirement for a plan of correction is in 42 CFR 488.402(d). An acceptable plan of correction must:

• Address how corrective action will be accomplished for those residents found to have been affected by the deficient practice;
• Address how the facility will identify other residents having the potential to be affected by the same deficient practice;
• Address what measures will be put into place or systemic changes made to ensure that the deficient practice will not recur;
• Indicate how the facility plans to monitor its performance to make sure that solutions are sustained; and
• Include dates when corrective action will be completed. The corrective action completion dates must be acceptable to the State. If the plan of correction is unacceptable for any reason, the State will notify the facility in writing. If the plan of correction is acceptable, the State will notify the facility by phone, e-mail, Facility-Information Notice of Acceptable Plan of Correction, and/or an updated Plan of Certification and Treatment Plan.
