**500. FACILITY STANDARDS FOR AGENCIES PROVIDING CENTER-BASED SERVICES.**  
 The requirements in Section 500 of this rule, apply when an agency is providing center-based services. (7-1-11)

**03. Fire and Safety Standards. (7-1-11)**  
**a. Buildings on the premises must meet all local and state codes concerning fire and life safety that are applicable to a DDA. The owner or operator of a DDA must have the center inspected at least annually by the local fire authority and as required by local city or county ordinances. In the absence of a local fire authority, such inspections must be obtained from the Idaho State Fire Marshall's office. A copy of the inspection must be made available to the Department upon request and must include documentation of any necessary corrective action taken on violations cited; (7-1-11)**

Through review of agency documentation, it was determined that the agency's facility did not receive annual inspections by the local fire authority. The inspections of record occurred on 12/18/10 and 3/4/13.

An annual building inspection will be completed by the local fire authority at the request of the Quality Assurance employee. As of 4/1/2013, this requirement has been added to the yearly QA agenda and will be monitored by the Administrator to avoid further oversight and to ensure inspections are completed annually.
