2. Brief Waiver Description

Brief Waiver Description. *In one page or less*, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The goal of the Aged & Disabled Waiver is to allow Idaho's elderly and disabled citizens who meet nursing facility level of care to choose to live in a home or community-based setting rather than in an institution. This goal is in keeping with the Idaho Department of Health and Welfare's goals of strengthening individuals, families and communities.

Idaho's elderly and disabled citizens should be able to maintain self-sufficiency, individuality, independence, dignity, choice, and privacy in a safe and cost-effective setting. When possible, services should be available in the participant's own home and/or community regardless of their age, income, or ability, and should encourage the involvement of natural supports, such as family, friends, neighbors, volunteers, church, and others. These principles are built into the structure of Aged & Disabled Waiver, which offers important services in home and community-based settings such as homes and apartments of participants, homes and apartments where participants live with family members, Certified Family Homes, and Residential Assisted Living Facilities.

Individuals seeking services must complete an application for Medicaid with Self-Reliance staff in the Division of Welfare, a division within the Idaho Department of Health and Welfare (referred to hereafter as "the Department"). The Division of Welfare determines financial eligibility for the waiver. The waiver is administered by the Division of Medicaid's Bureau of Long Term Care (BLTC). Requests for waiver services will be sent to one of the appropriate Medicaid offices. A BLTC nurse reviewer will conduct an assessment to assure that nursing facility level of care is met. The nurse reviewer will collaborate with the participant (and/or family or legal representative, as appropriate) in choosing services that ensure the participant can be safely maintained in their choice of living arrangement. The participant (and/or family or legal representative, as appropriate) chooses providers to deliver services. The BLTC is responsible for reassessment annually to make sure the services are being delivered in accordance with the service plan and the services authorized can safely and effectively maintain the participant in their home. The BLTC is also responsible for ensuring that services are delivered by a qualified providers with the skills or training necessary to perform the services. The Idaho Department of Health and Welfare's Division of Licensing and Certification ensures that various types of waiver providers are in compliance with applicable statutes and rules governing their license, certificate, and/or credentialed status. Through the development and implementation of a comprehensive quality improvement strategy, the Division of Medicaid assures compliance with the waiver objectives.

For individuals enrolled in the state's Medicare-Medicaid Coordinated Plan (MMCP), the managed care entity (MCE) will administer the waiver in accordance with the same rules by which BLTC administers the waiver for participants not enrolled in the MMCP. The BLTC will supervise the MCE to ensure compliance with the contract with the Department and this waiver. The MCE will perform, to the extent applicable, the same functions as BLTC for its enrollees who are waiver participants. The BLTC will continue to complete the level of care assessments for all A&D waiver participants, regardless of whether they are enrolled in the MMCP. Any references to duties of the MCE apply only to individuals who are enrolled in the state's MMCP.

Adult Day Health and Home Delivered Meal Services. The initial rate was set in 1999 based on time studies in nursing facilities.

Residential Habilitation. The Department will survey current residential habilitation providers to identify the actual cost of providing residential habilitation services (Cost Survey). Reimbursement rates will be based on surveyed data and derived using a combination of four cost components – direct care staff wages, employer related expenditures, program related costs, and indirect general and administrative costs.

The individual components of the rate will be determined as follows: (1) the direct care staff wage component will be determined using either the wage for a comparable Bureau of Labor Statistics (BLS) occupation title, or the weighted average hourly rate from surveyed data if there is no comparable BLS occupation title; (2) the employer related expenditure component will be determined by multiplying the direct care staff wage by the cumulative percentage of employer costs for employee compensation identified by BLS for the West Region, Mountain Division and the internal revenue service employer cost for social security benefit and Medicare benefit; (3) the program related cost component will be determined by identifying the 75th percentile of the ranked program related costs from the surveyed data; and (4) the indirect general and administrative cost component will be determined by identifying the 75th percentile of the ranked general and administrative costs from the surveyed data.

Consultation Services, Personal Emergency Response System Services, Day Habilitation and Supported Employment - The initial rate was set back in 1999 based on time studies in nursing facilities. Going forward, the rate is set based on a labor model that uses a Staff Support Hour (SSH) rate approach, which involves developing a single rate for a unit of staff time spent providing services for an individual.

Attendant Care, Homemaker Services, Companion Services, Chore Services, and Respite Care Services – Section 16.03.10.037.02 requires the Department to conduct a survey when there are identified access issues. As a result, the rate was developed from a cost survey conducted in 2016. The surveyed results of four cost components were combined to arrive at an hourly unit rate. Since these services are identified as personal care service, section 16.03.10.307 followed. The hourly rate calculation was determined using the following reimbursement methodology. The Department followed IDAPA 16.03.10.307.04.a in calculating a direct care wage. This section states the Department will establish Personal Assistance Agency rates for personal assistance services based on the WAHR. The Department followed IDAPA 16.03.10.307.04.b in calculating a supplemental component. This section states the Department will calculate a supplemental component using costs reported for travel, administration, training, and payroll taxes and fringe benefits (employment related expenditures, program related costs, and indirect general and administrative costs).

Adult Residential Care - This service is paid on a per diem basis based on the number of hours and types of assistance required by the participant as identified in the Uniform Assessment Instrument.

Non-medical Transportation - A study is conducted that evaluates the actual costs of fuel reasonably incurred by the typical non-commercial transportation provider whose personal vehicle averages fifteen (15) miles per gallon.

Specialized Medical Equipment & Supplies - For codes that are manually priced, including miscellaneous codes, a copy of the manufacturer's suggested retail pricing (MSRP) or an invoice or quote from the manufacturer is required. Reimbursement will be seventy-five percent (75%) of MSRP. If pricing documentation is the invoice, reimbursement will be at cost plus ten percent (10%), plus shipping (if that documentation is provided). For codes that are not manually priced, the rate is based on the Medicaid fee schedule price.

Environmental Accessibility Adaptations - For adaptations over \$500, three bids are required if it is possible to obtain three bids. The lowest bid which meets the participant's needs is selected.

Nursing Services - These services are paid on a uniform reimbursement rate based on an annual survey conducted by the Department.

The contract between the Department and the MCE shall be a firm fixed fee, indefinite quantity contract for services specified in the Scope of Work. For payment purposes, a capitated payment is calculated based on the current eligible MMCP participant count multiplied by the per member per month (PMPM) figure and is intended to be adequate to support participant access to, and utilization of covered services, including administrative costs. The total PMPM payment is comprised of two (2) components; the Medical capitation and the blended Long Term Services and Supports (LTSS). Once the eligible Enrollee count by enrollment status is determined for the contract, the blended LTSS rate will remain in effect through the contract period.

- b. Flow of Billings.** Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the State's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

For services provided on a Fee For Service (FFS) basis, provider billing flows directly from the provider to the State's claim payment system. Health PAS Administrator (QNXT) is Idaho's Management Information System (MMIS).

Providers for participants enrolled in the MMCP bill the MCE (or the MCE's subcontractor, if applicable) for all services rendered.

- c. Certifying Public Expenditures** (*select one*):

- No. State or local government agencies do not certify expenditures for waiver services.**
- Yes. State or local government agencies directly expend funds for part or all of the cost of waiver services and certify their State government expenditures (CPE) in lieu of billing that amount to Medicaid.**

Select at least one:

- Certified Public Expenditures (CPE) of State Public Agencies.**

Specify: (a) the State government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (*Indicate source of revenue for CPEs in Item I-4-a.*)

- Certified Public Expenditures (CPE) of Local Government Agencies.**

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (*Indicate source of revenue for CPEs in Item I-4-b.*)

- d. Billing Validation Process.** Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

The following are the processes employed by the State to validate provider billing to produce the claims for FFP:

- b. **Average Length of Stay.** Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

To estimate the waiver length of stay, the A&D waiver CMS 372 reports for the previous three years were used. Days are limited to 365.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

- c. **Derivation of Estimates for Each Factor.** Provide a narrative description for the derivation of the estimates of the following factors.

- i. **Factor D Derivation.** The estimates of Factor D for each waiver year are located in Item J-2-d. The basis for these estimates is as follows:

Historical waiver expenditure data and user data from the 372 reports was used to assist in projecting forward the estimate for the five-year waiver period.

The estimated number of users of each service was calculated by reviewing the number of users of each service on the 372 report, and increasing that number at the same rate that the overall number of waiver participants is expected to increase during the five-year waiver period.

The MMIS was used to derive the historical number of units per user. Estimated units per user were held constant through the five years of the waiver renewal.

The starting cost per unit was derived from the current A & D Fee Schedule. The cost per unit was held constant through the five years of the waiver renewal as the historical changes in reimbursement rates did not result in a predictable pattern to forecast. The waiver will be amended in the event that cost per unit fluctuates over time.

ii. Factor D' Derivation. The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Historical Medicaid expenditures for A & D waiver participants from the internal MMIS system were reviewed and projected forward over the five year estimate period, based on the historical trend.

Factor D' does not include the costs of prescription drugs.

iii. Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Estimates were derived from actual data available in the internal MMIS system and then projected forward over the five year estimate period, based on the historical trend.

iv. Factor G' Derivation. The estimates of Factor G' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Estimates were derived from actual data available in the internal MMIS system and then projected forward over the five year estimate period, based on the historical trend.
