W-Written V-Verbal	PNA Percentage Change		Policy Change
W	Comment specifically addressing the impact aligning the PNA to 100% would have on the ~191 participants affected and supporting aligning the PNA to 150% as it would significantly improve the quality of life for the individuals who are impacted (~2,100).	Thank you for the response. This information will be shared with Administration for consideration when determining budget implications of this change.	TBD – No determination has been made as of this date, but this feedback is being considered.
