Access to Recovery ATR4

Homeless Population

ATR4 Overview

- SAMHSA grant to provide Substance Use Disorder (SUD) services to specific populations. Idaho is one of only six applicants to receive this grant
- Focus on a client-centered approach and client choice in treatment services and planning
- ATR4 and all grant funded services will expire September 29, 2017

Business Psychology Associates (BPA)

Private entity contracted by the State of Idaho to manage the Treatment and Recovery Support Services network

- Process referrals and screen clients for eligibility
- Conduct client intakes
- Authorize services and pay claims
- Utilization management of client services
- Quality assurance activities including provider audits

Eligibility

Financial Eligibility for ATR4

- Less than 200% of the Federal Poverty Rate in the past 30 days
  - Financial screening completed by BPA

Clinical Eligibility for ATR4

- Global Appraisal of Individual Needs (GAIN) assessment conducted by a Qualified Substance Use Disorder Professional (QSUDP)

Eligibility, cont.

Priority Population Eligibility for ATR4

- Veterans with SUD on supervised probation who are involved in a problem solving court
- Child Welfare families with SUD and involvement in child welfare court
- Homeless individuals and families – Meets the ATR4 definition of homelessness in the past 30 days

Referral Sources

ATR - Veterans

- Veterans Court Coordinators will refer clients to BPA

ATR - Child Welfare

- Family and Children's Services (FACS) will refer clients to BPA

ATR - Homeless

- Community-based organizations working with the homeless individual or family will assist the client in calling BPA for a phone screening

Services

Some of the services available in ATR4:

Treatment Services
- Intensive Outpatient
- Outpatient

Recovery Support Services (RSS)
- Case Management
- Drug Testing
- Transportation
- Life Skills
- Safe and Sober Housing

**Inpatient Treatment is not covered by ATR4*

Clients with Other Resources

ATR4 is not able to provide services for clients eligible to receive similar services through another program
- Ex. 1 - Clients receiving SUD services through another state funded program
- Ex. 2 – Clients with Medicaid that are eligible for the Idaho Behavioral Health Plan through Optum

Regulations

HIPAA and 42 CFR Part 2

- Community-based organization must have a release of information to communicate with the Treatment or RSS provider

Reporting requirements—Center for Substance Abuse Treatment (CSAT)

- Government Performance and Results Act (GPRA) required to be completed by Treatment providers at intake, 6 months, and discharge. In addition to meeting reporting requirements, it empowers the client to provide feedback of the program, let the Tx provider know how they are doing with their recovery, and see if additional services are necessary

Projections for Homeless Clients

- Around 300 homeless clients will access ATR4 funding annually
- The average cost per client is projected at $1,900
- On average, ATR4 clients are expected to receive services for 3-4 months

Homeless Population Process Flow

Client comes to you for assistance. They appear to meet the general eligibility requirements for ATR4

Assist client in calling BPA so they can be screened for financial and priority population eligibility

If you are following the clients treatment, complete a Release of Information for Treatment and/or RSS provider

Process Flow, cont.

If the client is eligible according to the financial and priority population requirements, the GAIN is conducted and client is evaluated for clinical eligibility. The GAIN takes about 3 hours

If the client meets the clinical eligibility requirements, they receive Treatment and Recovery Support Services

Client's case is reviewed regularly by BPA staff to determine continuing treatment needs
