RE: IVDU Deferred Treatment Admission

The Idaho Department of Health and Welfare, in conjunction with BPA, is initiating a deferred admission for clients meeting the IDHW-IVDU population funding group due to budget constraints as we near the end of the fiscal year.

Any caller meeting the IVDU population eligibility criteria including financial and clinical screening who does not meet another priority population will be managed as follows:

1. Upon meeting financial and clinical screening, BPA will create an assessment bundle authorization for 60 days and 40 units. Provider will use a maximum of 20 units to complete the GAIN-Core Assessment and the additional 20 units for outpatient treatment services over the 60 day authorization period.
2. BPA will review the GRRS once submitted and create additional treatment authorizations based on the following schedule:

Treatment Authorization Table

Feb 25th – Mar 31st = Assessment Bundle Auth starts immediately, the treatment auth starts 7/1/13
April 1st – April 30th = Assessment Bundle Auth starts immediately, the treatment auth starts 7/8/13
May 1st – May 31st = Assessment Bundle Auth starts immediately, the treatment auth starts 7/15/13
June 1st – June 30th = Assessment Bundle Auth starts immediately, the treatment auth starts 7/22/13
July 1st - forward = Assessment Bundle Auth starts immediately, the treatment auth starts when the GRRS review is complete.

3. Providers conducting the assessment are expected to give community based service referrals to assist the client during the 90 day waiting period outlined in the above authorization table.

IDHW and BPA will continue to work together to devise a future plan for best managing the population within the budget. Please reach out to your Regional Coordinator with any questions or assistance required.
