FROM: Department of Health & Welfare and Business Psychology Associates (BPA)

RE: Master Problem List (MPL) Form

As announced by the Department of Health & Welfare, the Master Problem List Form is no longer required to be included in the client file. It is important to note that ASAM requires the provider to identify if the dimension should be referred, deferred or treated. Those dimensions that are identified as needing to be treated should have a corresponding treatment plan. Those dimensions that are referred/deferred should have supporting documentation that follow through was made.

During the CSR process and the audit, BPA will still score on identifying client issues, ensuring the treatment plan addresses the ASAM dimensions that should be treated. You may document this on the MPL form or in a manner consistent with your treatment and documentation practices.

Your Regional Field staff is always available to answer your questions.
