Re: SAVE THE DATE – Block Grant Overview

In cooperation with the Idaho Department of Health and Welfare, the Center for Substance Abuse Treatment (CSAT) is offering an overview of the SAPT Block Grant requirements. The hope is that as a result of attending this training, participants will have a much better idea of what Block Grant-funded programs can, cannot or must do as conditions of receiving Block Grant funds. To achieve this aim, CSAT consultants will provide an overview that addresses the following areas:

- The history and intent of the Block Grant
- Service requirements that affect Block Grant-funded programs
- Financial requirements that affect Block Grant-funded programs
- Reporting and planning requirements
- Other laws and regulations that impact the Block Grant

This training focuses exclusively on the SAPT Block Grant requirements for substance abuse treatment. Therefore, the training is designed for key staff in Block Grant-funded substance abuse treatment programs that are responsible for managing or administering Block Grant-funded services and funds.
