MEDICAID INFORMATION RELEASE MA16-21

To: Prescribing Providers, Pharmacists, and Hospitals
From: Matt Wimmer, Administrator
Division of Medicaid *Matt Wimmer*
Subject: Update to Idaho Medicaid Preferred Drug List per Pharmacy and Therapeutics Committee Meetings on October 21 and November 18, 2016

| | |
|----------------------|---|
| Drug/Drug Classes: | Noted below. Agents shaded indicate changes in preferred drug status. |
| Implementation Date: | Effective for dates of service on or after January 1, 2017 |

The attached document is an update to the Idaho Medicaid Preferred Drug List. It reflects decisions based on recommendations from the Idaho Medicaid Pharmacy and Therapeutics Committee at the October and November 2016 meetings.

The preferred drug list and drug-class specific prior authorization criteria are based on nationally recognized peer-reviewed information and evidence-based clinical criteria. Medicaid designates preferred agents within a drug-class based primarily on objective evaluations of their relative safety, effectiveness, and clinical outcomes in comparison with other therapeutically interchangeable alternative drugs and, secondarily, on cost.

Questions regarding the Preferred Drug List can be referred to the Idaho Medicaid Pharmacy Unit at (208) 364-1829. A current listing of preferred agents, non-preferred agents, and prior authorization criteria for all drug classes is also available online at www.medicaidpharmacy.idaho.gov.
