BACKGROUND

Subject Heading

The Department will pay for vision services and supplies in accordance with the guidelines and limitations listed in the rules IDAPA 16.03.09.781 - 785 and IDAPA 16.03.09.882.06- EPSDT.

Children under the age of twenty-one (21) are eligible for all services listed in Department rules. Adults, age twenty-one (21) and over, are eligible for services necessary to treat or monitor a chronic condition, such as diabetes, that may damage the eye and acute conditions that if left untreated may cause permanent or chronic damage to the eye.

Idaho Medicaid has elected to cover both children and adults for eye exams and eyewear. Effective for date of service on or after July 1, 2011, the Legislature directed Medicaid to reduce benefits for adults to cover only medically necessary eye exams and eyewear to treat a chronic condition that impacts overall health or that progressively degrades vision.

POLICY

- Children are eligible for all services listed in Section 782 and Eyeglasses under EPSD, Section 883, of the IDAPA rules, which includes:
 - ✓ Eye Examinations: one eye exam during any twelve month period to determine the need for glasses to correct a refractive error. Exams more frequently than every 12 months may be prior authorized.
 - ✓ Eyeglasses following a diagnosis of visual defects and a recommendation that eyeglasses are needed for correction of a refractive error. The Department may pay for replacement of lost, broken, outgrown frames and lenses when the reason is indicated on the order.
 - ✓ Contact lenses with a correction of + or – 10 diopters, cataract surgery, keratoconus, anisometropia or other extreme medical conditions precluding the use of eyeglasses. A therapeutic contact lens bandage is covered when needed

immediately following eye injury or surgery. All contact lenses require a prior authorization.

- ✓ All vision products must be ordered from the Department's vision product contractor.
- Adult Eye Exams: Adults (age twenty one and over) are eligible for eye exams and vision products necessary to treat or monitor a chronic condition, such as diabetes, that may damage the eye and acute conditions that if left untreated may cause permanent or chronic damage to the eye. See list of diagnoses below which would allow claims to be processed without a prior authorization.
- Adult Eye Exams: with the diagnoses, listed under Conditions below, do not need a prior authorization. If the physician believes there is a condition, not listed below, which needs to be checked or monitored, he can use the KX modifier on the claim and attach medical documentation for justification.
- Adult eyeglasses and contact lenses: All must be prior authorized.
- Adult Eyeglasses post cataract surgery: Effective 7/1/2011, one pair of eyeglasses or contact lenses is covered following cataract surgery. Diagnoses normally received on PA requests are 379.31 Aphakia, 743.35 Congenital aphakia, and V58.72 surgery aftercare. The MMIS system is set to pend to check if a PA is on file before paying a claim, so no edit is needed to look for these diagnoses.
 - If Medicare is primary, no authorization is needed. The provider may supply the glasses/lenses from any lab they choose and bill Medicare. Medicare claims will cross over to Medicaid, which will pay the co-insurance/deductible. Normally Medicare allows more than Medicaid due to contract prices, so no additional payment is made.

If Medicare is not the primary, the Medicaid Medical Care Unit must prior authorize the glasses. Medicaid follows Medicare's LCD (L51) for determining coverage. Glasses must be ordered from the vision supply contractor, using the prior authorization number on their order.

Adults Contact Lenses: Contact lenses are covered to treat Keratoconus and when necessary to prevent further degradation of vision, a request with supporting documentation may be submitted for review.

GLOSSARY

EPSDT: Early & Periodic Screening, Diagnosis & Treatment. A program where children, who are from birth through the month of their 21st birthday, are specifically to receive wellness exams and services for vision, dental and hearing.

Adult: A person who is past the month of their 21st birthday and older.

Medically Necessary: A service which is reasonably calculated to prevent, diagnose, or treat conditions that endanger life, cause pain, or cause functionally significant deformity or malfunction and there is no other equally effective course of treatment available or suitable which is more conservative or substantially less costly.

Anisometropia: Refractive error in the two eyes of a pair differs.

Keratoconus: Conical protrusion of the center of the cornea without inflammation. Contact lenses made to patient's specific measurements are used for treatment.

Diopiter: The unit of measurement of the refractive power of a lens.

Cataract: A loss of transparency of all or part of the crystalline lens.

Dispensing: The selection, fitting and adjusting of ophthalmic frames, mountings and lenses, normally performed by an optician.

Vision Product Contractor: Barnett and Ramel Optical (B&R), Omaha, Nebraska holds the Medicaid contract as the supplier though 4/15/2013.

POLICY INTENT/RATIONALE

Eyeglasses are an optional service per federal code, but optometric services (eye exams) must be provided. As a cost savings measure effective July 2011, the Idaho Legislature limited coverage for adults to chronic care. Children have full vision benefits, including glasses or contact lenses when criteria is met.

CONDITIONS – ALLOW AUTOMATIC PAYMENT, PEND, OR DENY CLAIMS

Conditions that would automatically **pay** eye exams for adults age 21 and older.

Participants with conditions listed in the list below would pay.

Conditions that would be **pending** for manual review by a Department RN>

If there are additional diagnoses not on the list below that make it necessary for a vision exam, providers may bill using a KX modifier and attach supporting documentation to the claim. The claim will pend for manual review.

See list for diagnosis codes and other conditions noted below.

Conditions that would be automatically **denied** or denied after review by a Department RN.

Diagnosis is not one on attached list and KX modifier is not on claim. See list, Chronic Conditions for Adult Eye Exams, for list of diagnosis codes.

Note: Chronic Conditions identified by the Department as indicating a chronic condition requiring periodic vision exams for adults (age 21 and older). See separate attachment showing all specific ICD-9 and ICD-10 codes in the ranges which allows an exam.

Diagnoses and Procedures Not Covered by Idaho Medicaid:

Diagnoses: the KX modifier is not present on the claim when diagnoses are other than those on the attached list in Chronic Conditions List. If diagnosis is not one listed and KX modifier is present on claim, but no documentation is attached.

Procedures: 92065 Orthoptic and/or pleoptic training, with continuing medical direction and evaluation.
