Employers encouraged to keep registering!

Web registration will not close when 1,000 slots have been reserved. It will remain open indefinitely. It is quite possible that many more than 1,000 slots will need to be reserved in order to enroll 1,000 participants. There are several reasons for this:

- ⇒ First, it is known that some businesses reserved more slots than they actually need.
- ⇒ Second, it is possible that employers may decide at the last minute not to participate.
- ⇒ Third, it is possible that individuals who do apply may not be qualified.

So we encourage employers to continue to register for slots and reserve a spot on the Access to Health Insurance waitlist.
