

# Appendix B: Taxonomy Codes

## A.1 Overview

A taxonomy code designates provider type and specialty. The taxonomy code is a standard national code. When you apply for your NPI, you must indicate at least one (1) taxonomy code.

If you have multiple Idaho Medicaid Provider numbers and applied for only one (1) NPI, when you use that NPI on electronic claims to Idaho Medicaid, you must also submit the correct national taxonomy code on each electronic claim.

This Taxonomy Codes appendix in the Idaho Medicaid Provider Handbook indicates the specific National Provider Taxonomy Codes mapped to Idaho Medicaid's existing type and specialty designations.

Refer to the following pages for specific codes.
