January 2019

FREE ULTRASOUND PROVIDER LIST

Idaho Statute 18-609 requires the Idaho Department of Health and Welfare to compile a list of providers, facilities and clinics that have offered to perform a free ultrasound to any woman contemplating abortion and have requested to be included on the list. Idaho Statute 18-609 states that a patient contemplating abortion has “a right to view an ultrasound image and to hear heart tone monitoring” and “may obtain an ultrasound free of charge.”

The following is a list of providers, clinics, and facilities who have indicated they will provide a free ultrasound to a woman contemplating abortion. This list is updated annually by the Department each January 1st. For the most current list of providers, please visit www.abortioninfo.dhw.idaho.gov.

Information presented on this list is provided “as is” without any representations or warranties, express or implied, in compliance with Idaho Statute 18-609 and is for information purposes only. This information is not intended to constitute medical advice or the provision of medical services. If you have any specific questions about any medical matter, you should consult your doctor or other professional healthcare provider. The Department of Health and Welfare does not inspect, certify, or endorse any of the providers listed and cannot be held liable for the action(s) of said providers.
