

COVID-19 Health and Safety Resources

The Infant Toddler Program's number one priority is to promote and protect the health and safety of our staff and contractors, and the children and families we serve. As a result, we've identified the following Centers for Disease Control and Prevention (CDC) video resources containing simple instructions related to what you and your family members can do to minimize the spread of COVID-19. We hope you find these short and simple videos useful.

Stop the Spread of Germs -COVID-19 Video from the CDC (visual reminder tool, no audio)

Additional Precautions for Parents to Take When Arriving for An ITP In-Person Visit in A DHW Office

Prior to the visit, the following additional precautions must be taken by a parent/caregiver when arriving for an ITP in-person visit in a DHW office:

- Arrive 10-15 minutes prior to the scheduled in-person visit and wait in their car.
- Text or call the ITP staff/contractor to let them know they have arrived.
- Leave personal items that will not be needed for the in-person in the car. This includes jackets, purses, bags, and backpacks.
- Parent/caregiver will be escorted to the DHW office by the ITP staff/contractor completing the in-person visit
- Follow the Centers for Disease Control and Prevention (CDC) guidelines for handwashing or the use of hand sanitizing gel upon arrival and prior to leaving the visit.
- Wear a face mask at all times while inside the DHW building. If they do not have a mask, ITP will provide one for them.
- Avoid touching of faces or any non-sanitized surfaces.
- May not bring food or drinks to visits.
