In SFY 2019
Regions 3 & 4 completed the social emotional training of staff, testing 90% on training exams. Performance for Module 1 fell slightly below the goal.

92% had embedded social emotional practices into their work with children and families six months after the training.

Between 7 and 8 in 10 also reported at least moderate changes in specific aspects of their practice because of the SE training.

Families are Noticing...

91% of families reported understanding how to support the social emotional development of their child.

In SFY 2019, Regions 3 & 4 completed the social emotional training of staff, testing 90% on training exams. Performance for Module 1 fell slightly below the goal.

92% had embedded social emotional practices into their work with children and families six months after the training.

Between 7 and 8 in 10 also reported at least moderate changes in specific aspects of their practice because of the SE training.

Families report benefits from improved ECO practices

Statewide, families’ involvement in determining the ECO ratings increased dramatically from SFY 2018 to 2019 and held steady since then. A similar pattern is seen in family’s awareness and understanding of the ECO processes (last three measures).

Next Steps

❖ Continue Evidence Based Practices
  * Complete Pilot in July and report operation and fidelity findings to drive scale-up of a feasible and effective system
  * Deploy the ten FIP-EI Certified mentors to expand EBP fidelity measurement and reporting statewide.
  * Finalize and implement plan for the remaining three EI EBP practitioner training tracks

❖ Report COVID impact statewide for ECOs and ECO Fidelity for East Hub

❖ Learn families’ advice about how to improve their Infant Toddler experiences.
