Estimated Funding Allocation, 2604(C), 2605(k)(1), 2605(b)(9), 2605(b)(16) – Assurances 9 and 16

1.2 Estimate what amount of available LIHEAP funds will be used for each component that you will operate: **The total of all percentages must add up to 100%.**

61.92 % heating assistance

0 % cooling assistance

3.06 % crisis assistance

- Heating assistance
- Weatherization assistance
- Cooling assistance
- Other (specify): Crisis Assistance

Categorical Eligibility, 2605(b)(2)(A) – Assurance 2, 2605(c)(1)(A), 2605(b)(8A) – Assurance 8

1.4 Do you consider households categorically eligible if one household member receives one of the following categories of benefits in the left column below? Yes No

If you answered “Yes” to question 1.4, you must complete the table below and answer questions 1.5 and 1.6.

	Heating	Cooling	Crisis	Weatherization
TANF	X		X	X
SSI	X		X	X
SNAP	X		X	X
Means-tested veteran’s program				
Other (Specify):				

1.5 Do you automatically enroll households without a direct annual application?

- Yes No –

If yes, explain:

1.6 How do you ensure there is no difference in the treatment of categorically eligible households from those not receiving other public assistance when determining eligibility and benefit amounts?

In determining benefits for the heating component, there is no differentiation between non-categorically and categorically eligible participants. The benefit level is established by using a “heating matrix” which shows an average heating cost by region in the State. The benefit amount received by an eligible household is based on the household income, fuel type and energy burden. Households with the lowest income receive the highest benefit for their fuel type by region. Households with members who are disabled, over 60 or have children under the age of six (6) are considered vulnerable populations and are given a target benefit. We estimate approximately three quarters of categorically eligible families who received a LIHEAP benefit the prior year have one or more vulnerable members in the household. These families

will be allowed to use the State’s abbreviated application process to apply for benefits at the beginning of the LIHEAP regular season. In addition, all other households who received a benefit last year with members who meet the vulnerable population definition will be contacted by the State and encouraged to apply for benefits at the beginning of the regular LIHEAP season.

1.7 a. Do you allocate LIHEAP funds toward a nominal payment for SNAP households?

- Yes No

If you answered “Yes” to question 1.7a, you must provide a response to questions 1.7b, 1.7c, and 1.7d.

Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component:

Household Size	Eligibility Guideline	Eligibility Threshold
All Household Sizes	HHS Poverty Guidelines	150.00%

4.2 Provide your LIHEAP program’s definition for determining a crisis.

Idaho defines a crisis as a situation where an eligible household:

- Is at risk of disconnection of utility service;
- Has had their utility service disconnected; or
- Has less than 48 hours of bulk fuel.

4.3 What constitutes a life-threatening crisis?

Idaho defines a life-threatening crisis as a situation where an eligible household contains at least one household member:

1. With an illness or medical condition that poses an immediate risk due to the loss of the energy source.
2. Has a medical condition requiring the use of an energy source to operate a medical device or store medication.

Idaho also considers it a life-threatening situation when the household has less than 18 hours of bulk fuel during the heating season.

Crisis Requirements, 2604(c)

4.4 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households? 48 Hours

4.5 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households in life-threatening situations? 18 Hours

- Other? _____ Yes No

- Do you have additional/differing eligibility policies for:

- Renters? Yes No
- Renters living in subsidized housing? Yes No
- Renters with utilities included in the rent? Yes No

Explanations of policies for each “yes” checked above:

The intake process for crisis application uses the same intake process as regular benefits. This allows the agency to determine whether a household applying for crisis has members who are elderly, disabled or young children. Vulnerable households are prioritized when crisis funding is limited. Crisis applications are processed within 48 hours. In the event a household can show a life-threatening crisis situation, the application is processed within 18 hours. Households are required to provide documentation of a life-threatening condition. All households applying for crisis benefits must show they are at imminent risk of losing energy services or have already lost services. In some cases, the agency is able to verify this information directly from the energy provider.

Determination of Benefits

4.8 How do you handle crisis situations?

- Separate component
- Fast Track
- Other - Describe: _____

4.9 If you have a separate component, how do you determine crisis assistance benefits?

4.16 Do any of the utility vendors you work with enforce a winter moratorium on shut offs?

Yes No

If you responded "Yes" to question 4.16, you must respond to question 4.17.

Households that include elderly, disabled or children under 6 that are customers of a regulated utility qualify. The plan allows you to pay less than the full amount of your bill during the winter months (November 1 through March 31). Regulated utilities also are not allowed to discontinue services to customers with a past due amount during the moratorium.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

If any of your LIHEAP components are not centrally-administered by a state agency, you must complete questions 8.6, 8.7, 8.8, and, if applicable, 8.9.

8.6 What is your process for selecting local administering agencies?

In Idaho, Community Action Agencies are exempt from the bidding process for contracts. In the Department of Purchasing bid exemption, Community Action Agencies are defined as follows:

- **Community Action Agencies** -- Community action agencies and other neighborhood-based organizations providing direct services as detailed in the CSBG Act, Public Law 105-285 (42 US Code 9901); community action associates who provide CSBG administrative oversight responsibilities.

8.7 How many local administering agencies do you use?

6 (six)

8.8 Have you changed any local administering agencies from last year?

Yes No

8.9 If so, why?

- Agency was in noncompliance with grantee requirements for LIHEAP
- Agency is under criminal investigation
- Added agency
- Agency closed
- Other – describe _____

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 9: Energy Suppliers, 2605(b)(7) – Assurance 7

9.1 Do you make payments directly to home energy suppliers?

- Heating Yes No
- Cooling Yes No
- Crisis Yes No
- Are there exceptions? Yes No

If yes, describe: Idaho does make payments directly to the participant when the following conditions are met: household benefit is for heat in rent payment or household utilizes small (25 gallons or less) propane tanks for primary heating fuel or household uses wood or pellets.

9.2 How do you notify the client of the amount of assistance paid?

Upon completion of their application the household receives an eligibility notice stating whether or not the household is eligible for assistance.

If the household is determined to be eligible, the notice includes the benefit amount, energy supplier and account number as applicable. When requested, a copy of the eligibility notice is provided to the home energy supplier who is then expected to provide the required protections to the eligible household.

If the household is determined ineligible, the eligibility notice states the reason for denial of services and their appeal rights.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Idaho requires a signed agreement named the Idaho LIHEAP Direct Payment Vendor Agreement with each participating energy supplier to be on file prior to the start of the program season or when a new vendor begins providing services to LIHEAP households. The signed Idaho LIHEAP Direct Payment Vendor Agreement ensures that program eligible households are treated fairly and not discriminated against in the cost of goods or services provided and that the full amount of assistance is applied to the household account. The Department works with a contractor to manage vendor agreements and monitor to verify energy suppliers are in compliance with the terms as outlined in the vendor agreement.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

All energy suppliers participating in the LIHEAP program must have a signed vendor agreement prior to receiving LIHEAP funds for eligible households. The signed vendor agreement contains language that ensures program eligible households are treated fairly and not discriminated

against in the cost of goods or services provided and that the full amount of assistance is applied to the household account.

9.5 Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10) – Assurance 10

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

LIHEAP funds are tracked using Direct Service Provider invoices which are submitted at least weekly and at a maximum, monthly. The funds requested by Direct Service Providers are reviewed by the primary contractor and the Department prior to payment. Fiscal activities are monitored throughout the year. Additionally, monitoring is performed annually. Monitoring includes an in-depth financial review of the program year. The Direct Service Providers are also required through contracts to have an annual audit conducted in accordance with the Single Audit Act.

Program activities are monitored during the season using reports generated by the Department computer database (i.e., number of applications per county and per Direct Service Provider; number of days to process applications).

The Department monitors all fiscal and program performance activities of the primary contractor on an annual basis (unless more frequent monitoring is indicated due to poor monitoring results) and is subject to an annual independent financial audit.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A-133?

Yes

10.3. Describe any audit findings rising to the level of material weakness or reportable condition cited in the A-133 audits, Grantee monitoring assessments, inspector general reviews, or other government agency reviews of the LIHEAP agency from the most recently audited federal fiscal year.

12.2 How many of those fair hearings resulted in the initial decision being reversed?
0 (zero)

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?
None

12.4 Describe your fair hearing procedures for **households whose applications are denied**.

Process for households whose applications are denied:

The household is given an eligibility notice upon completion of their application. The participant's appeal rights are included on the eligibility notice and on the formal 'Notice of Denial' letter. If the participant feels they were wrongly denied services, the direct service provider holds a conference with the participant to attempt to resolve their appeal. If unresolved, the direct service provider assists the household with completing and mailing the appeal form to the Department of Health and Welfare's Fair Hearing Unit.

Upon receipt of the participant's appeal request, the Department of Health and Welfare proceeds with the standard fair hearing procedure as outlined in the section below. To accommodate the applicant, hearings are conducted at the Regional Health and Welfare office closest to their residence through a telephone conference.

Standard fair hearing procedure:

Administrative fair hearings are available to any household applying for or receiving a LIHEAP benefit in accordance with Idaho Administrative Code. Any program applicant or recipient may request a hearing. Included with all determination notices is a form that instructs customers how to request a hearing if they disagree with the action taken by the Department or if they feel they have been discriminated against. Fair Hearing Requests must be received within 30 days of the determination and can be submitted using the Department's Hearing Request Form (HW-0406) or by submitting in writing their name, address and phone number, and the remedy requested.

Once a fair hearing request is received, the Department acknowledges the fair hearing request and has 30 days to schedule a hearing. The Department contacts each individual before scheduling the hearing to discuss the basis of the hearing and to address any misunderstandings or miscommunication that may have occurred. If the individual does not request to withdraw their hearing request then the hearing will take place as scheduled. The hearing is conducted by a hearing officer. Once the hearing has taken place the hearing officer has 30 days to file a preliminary order, which is distributed to both the Department and the individual. The individual will receive a written copy of the hearing decision by mail. If the individual does not agree with the hearing officer's decision, he or she has an opportunity to

appeal the decision. These appeals are managed by the office of the Director of Health and Welfare and the Deputy Attorney General.

- **DIVISION OF WELFARE: TIME FOR FILING APPEAL.** A decision issued by the Department in a Division of Welfare program will be final and effective unless an individual or representative appeals within thirty (30) days from the date the decision was mailed, except that a recipient or applicant for Food Stamps has ninety (90) days to appeal. An individual or representative may also appeal when the Department delays in making an eligibility decision or making payment beyond the limits specified in the particular program within thirty (30) days after the action would have been taken if the Department had acted in a timely manner. (5-8-09)

12.5 When and how are applicants informed of these rights?

Fair hearing notices are posted in local agency offices and satellite offices in the intake area, intake work stations and/or lobby area. Agencies who serve limited English proficiency applicants provide this information in Spanish. The household is given an eligibility notice upon completion of their application. The participant's appeal rights are included on the eligibility notice and on the 'Notice of Denial.' The eligibility notice and the 'Notice of Denial' are provided in Spanish to households who indicate their primary language is Spanish.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

All fair hearing processes are handled within the process described under Section 12.4.

12.7. When and how are applicants informed of these rights?

The household is given an eligibility notice upon completion of their application. The participant's appeal rights are included on the eligibility notice and on the 'Notice of Denial.'

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 13: Reduction of home energy needs, 2605(b)(16) – Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Services provided to encourage and enable households to reduce their home energy consumption include the following:

- Include information on level payment plans during energy education, targeted to vulnerable populations and fixed income participants;
- In-home energy education to support installation of utility-provided kit materials;
- Purchase of low cost/no cost energy conservation items for non-regulated electric utility customers;
- Leverage supplemental payments for participants who were unable to obtain their LIHEAP benefits;
- Assessment of home energy use;
- Referral to the Weatherization Assistance Program;
- Provide centralized energy education classes to outreach sites, target households of a specific utility to increase impact;
- Provide a supplemental payment on behalf of the participant to the home energy vendor to incentivize participation in formal energy education;
- Referral to available utility-funded energy conservation programs/services;
- Advocacy on behalf of households with home energy vendor to prevent disconnection; and
- Incentive benefits to households for attendance at energy education classes.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

Each budget component is assigned a Program Cost Accounting (PCA) code. Expenditures applicable to these activities are coded to the specific PCA. The fiscal accounting of the Direct Service Providers is monitored to ensure costs are coded to the appropriate PCA for the type of activity being billed.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

The impact of the Assurance 16 activities provided to 41 % of households that received LIHEAP will serve as a baseline for comparison in future program years. The data collection occurred by tracking services statewide in the statewide database. These services are associated with LIHEAP-recipient households whose energy cost and consumption is collected from the home energy vendors annually.

PY 17 will serve as the baseline year for tracking outcomes of education and other Assurance 16 activities. The outcome of Assurance 16 activities will be determined by a combination of data analysis, program participant perspective and the data available on the Performance Management Integration Guides. The energy consumption and cost for LIHEAP recipient

households who have a minimum of twelve months of energy cost and consumption data and received Assurance 16 services will be analyzed beginning in PY 18. In addition, Idaho will provide an online survey to PY 18 LIHEAP recipient households to determine the effectiveness of Assurance 16 activities. This will provide a customer perspective and provide information on related behavioral changes which can be associated with Assurance 16 activities. Idaho will also utilize the data on the Performance Management Integration Guides developed by Apprise to identify areas where Assurance 16 activities can be improved in future years.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

In PY17, 36,941 households received these services.

13.5 How many households applied for these services?

Idaho does not require a separate application to receive these services. Identification of eligible households is completed during program intake.

13.6 How many households received these services?

In PY17, 15,513 households received these services.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 14: Leveraging Incentive Program, 2607(A)

14.1 Do you plan to submit an application for the leveraging incentive program?

Yes No

14.2 Describe instructions to any third parties and/or local agencies for submitting LIHEAP leveraging resource information and retaining records.

Direct Service Providers pursue enhanced heat and weatherization funding through leveraging activities according to the guidelines set in the LIHEAP regulations outlined in 45 CFR 96.87, in DOE Grant Guidance and 10 CFR 440. Direct Service Providers will ensure all funds obtained from leveraging are used to increase LIHEAP impact on utility bill assistance and expand energy efficiency services and/or increase the number of dwelling units completed for weatherization eligible participants. Direct Service Providers are responsible for retaining this information. Direct Service Providers are required by contract to submit an Annual Leveraging Report no later than October 14th.

14.3 For each type of resource and/or benefit to be leveraged in the upcoming year that will meet the requirements of 45 C.F.R. § 96.87(d)(2)(iii), describe the following:

What is the type of resource or benefit?	What is the source(s) of the resource?	How will the resource be integrated and coordinated with the LIHEAP program?
1-Cash donations	Community Members	Cash donations are used to offset utility bill assistance to low income households.
2-Discounts and/or Waivers	Local Businesses	Discounts and/or Waivers provided to low income households to increase impact of utility bill assistance.
3-Volunteer Time	Community Members	Donation of time and talent to the agency by community members to provide firewood to low-income households referred by agency to partner organization.

7-Donated Services	Community Members	Handymen, community members, and chimney sweepers donated services to low income

		households to increase impact of utility bill assistance to these households.
8-Paint Magic	Local Business	Painting services donated to local low income community members to improve dwelling durability.
9-Housing Preservation Grant	Grant Funding	Allows weatherized homes to get non-energy improvements to improve dwelling durability.
10-Landlord Contribution to Weatherization	Community Members	Contribution of funds to agency toward weatherization of rental units and/or provision of repair that resulted in weatherization services to low-income households
11-Material Donations	Local Businesses	Contribution of materials to weatherization agencies to increase dwelling durability, comfort and provide measures which are not allowable with federal funds.

Section 16: Performance Goals and Measures, 2605(b) – Required for States only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming Federal fiscal year.

Idaho began collecting data on the four required LIHEAP performance measures in FFY 2015. The statewide database has new data fields to track all necessary information required for reporting. The four required measures are as follows:

- Energy Burden Targeting (all households)
- Energy Burden Targeting (high burden households)
- Restoration of Home Energy Service
- Prevention of Loss of Home Energy Service

These four measures were initially reported in FFY 2016 in Sections V through VII of the Performance Data form in OLDC. When reviewing the data that was collected by intake staff, Idaho identified a gap in reporting accuracy. It was recognized that staff was interpreting the required data elements differently. To provide clarity, we provided T and TA across the network to ensure uniformity in collecting future data. Additionally, improvements were made to the reporting module of the statewide database.

Policy Manual Updates and Staff Training: Intake staff were trained on the new data elements and processes for collecting information beginning in FFY 2015. This is the timeframe when the new data points were incorporated in to the statewide database. In FFY 2017, Idaho continued to utilize analysis of data to improve training for intake staff and developed a comprehensive manual for data collection in to the statewide database for users to reference throughout the LIHEAP season. In addition, Idaho evaluates data collection related to federal reporting requirements quarterly in order to minimize inaccurate data collection. This is expected to continually improve the quality of data collected within the statewide database.

Idaho's LIHEAP Intake Manual is reviewed annually to include any policy and/or process improvements to support integrity of data collection. Collection of the four data points related to the Performance Data form were incorporated in to this policy manual. This manual is used by LIHEAP intake staff and program managers. Idaho hosts a de-brief meeting after the close of the heating season to discuss challenges with program delivery and to identify solutions which are then incorporated in to the policy manual to ensure high-quality program implementation and accurate data collection.

Modified Vendor Agreements: Idaho's vendor agreements identify the new data elements and established data reporting requirements. All vendors with a signed agreement will be required to submit data to the Department on an annual basis. Idaho continues to work with vendors to address challenges and/or concerns that arise regarding reporting requirements. Per the agreement, vendors are required to submit their data reports annually. The data will be analyzed in preparation for reporting on the LIHEAP Performance Measures report.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
