

How to Conduct a Search in the Formula Handbook

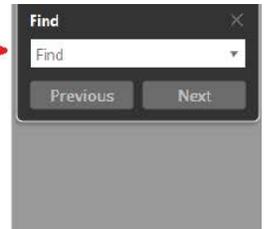

Three possible ways to use Find function with the Formula Handbook

1. Bring up the Formula Handbook:

- If your display looks the same as the picture below do the following:
 - Use the keyboard and enter "Ctrl" "F"
 - A box will display in the upper right corner.
 - Enter the formula you wish to search for in the box and hit Enter.
 - There may be more than one result for your search, if this is the case Hit Enter until you find the correct example.

<p>ALFAMINO INFANT (Nestle Health Science) USE: A nutritionally complete <u>infant formula</u> (amino-based, hypoallergenic) intended for <u>infants with cow's milk protein allergy, multiple food allergies and malabsorption/maldigestion, eosinophilic GI disorders and short bowel syndrome.</u> Contains DHA and ARA. Contains free amino acids. Lactose-free and gluten free.</p> <p>Per 100 kcal (5 fl oz): 2.8 g pro, 5 g fat, 11 g CHO, 1.8 mg iron</p>	<p>Approved with Medical Documentation form.</p>	<p>14.1 oz (400 g) can powder 6 cans/case Reconstituted: 94 fl oz</p> <p>Standard dilution 20 kcal/ fl oz 1 (4.7g) unpacked level scoop added to 1 fl oz water makes 1 fl oz</p>	<p>Protein (11% kcal) - Free amino acids, L-Carnitine</p> <p>Fat (45% kcal) - MCT, (vegetable oils: Soybean oil, high oleic sunflower and high 2-palmitic vegetable oil) m.</p>
--	--	---	---

2. Bring up the Formula Handbook:

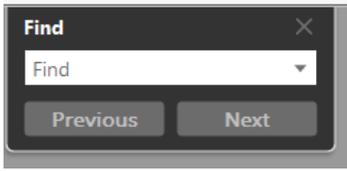

- Use a Right Mouse Click. When a pop-up displays select Find (see red arrow)

<p>ALFAMINO INFANT (Nestle Health Science) USE: A nutritionally complete <u>infant formula</u> (amino-based, hypoallergenic) intended for <u>infants with cow's milk protein allergy, multiple food allergies and malabsorption/maldigestion, eosinophilic GI disorders and short bowel syndrome.</u> Contains DHA and ARA. Contains free amino acids. Lactose-free and gluten free.</p> <p>Per 100 kcal (5 fl oz): 2.8 g pro, 5 g fat, 11 g CHO, 1.8 mg iron</p> <p>Osmolality: 330 mOsm/kg</p> <p>CAUTION: Use as directed by a healthcare professional.</p>	<p>Approved with Medical Documentation form.</p>	<p>14.1 oz (400 g) can powder 6 cans/case Reconstituted: 94 fl oz</p> <p>Standard dilution 20 kcal/ fl oz 1 (4.7g) unpacked level scoop added to 1 fl oz water makes 1 fl oz</p>	<p>Protein (11% kcal) - Free amino acids, L-Carnitine</p> <p>Fat (45% kcal) - MCT, (vegetable oils: Soybean oil, high oleic sunflower and high 2-palmitic vegetable oil) m. Alpina oil, C. Cohnii oil</p> <p>CHO (44% kcal) - Corn syrup solids, Potato starch, maltodextrin</p>
<p>ALFAMINO JUNIOR (Nestle Health Science) USE: A nutritionally complete <u>medical food</u> (Nutritional- amino-based, hypoallergenic) intended for <u>children ages 1-13 with cow's milk protein allergy, multiple food allergies and malabsorption and short bowel syndrome.</u> Contains</p> <p>Per 240kcal (8oz) 7.8 g pro, 10 g fat,</p> <p>Osmolality: 590 mOsm/kg</p> <p>CAUTION: Use as directed by a health</p> <p>Applied Nutrition Corporation—has State Office for clarification if a pre Website for more information on th http://www.medicalfood.com/prod</p> <p>Pure Amino Acid Powder: #0120A L-Arginine #0130G Glycine #0140I L-Isoleucine #0150L L-Leucine #0160T L-Tyrosine #0170V L-Valine</p>	<p>Approved with Medical Documentation form.</p>	<p>14.1 oz (400 g) can powder 6 cans/case Reconstituted: 62 fl oz</p> <p>Standard dilution 30 kcal/ fl oz 3 (5.2g) unpacked level scoops added to 2 fl oz water makes 2.5 fl oz</p>	<p>Protein (13% kcal) - Free amino acids</p> <p>Fat (38% kcal) MCT, Soybean oil, mono and diglycerides</p> <p>CHO (49% kcal) - Corn syrup solids, Potato starch, Maltodextrin</p>

- This should display in the upper right hand corner of the PDF document.
- Enter your search term in the blank field and then hit enter.

<p>Enfamil NeuroPro EnfaCare (Mead Johnson) USE: A milk-based <u>infant formula</u> (premature) for <u>premature infants with high calorie and protein needs</u>. Designed for premature infants who have left the hospital but still require the extra calories, nutrients, and minerals of a specialized infant formula. Can be used through the first year of life. Contains higher levels of vitamins and minerals than standard term formulas. DHA, ARA and MFGM fortified. Iron-fortified. Gluten-free.</p>	Approved with Medical Documentation form.	12.8 oz can powder 6 cans/case Reconstituted: 82 fl oz Standard dilution = 22 kcals/oz: 1 scoop (9.8 g) powder to every 2 fl oz water	Protein (11% kcals) (60% whey, 40% casein) - Nonfat milk, whey protein concentrate Fat (47% kcals) - High oleic vegetable oil (sunflower and soy)
---	---	---	---

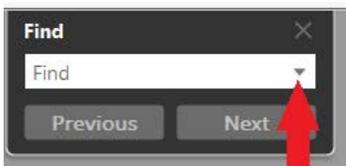

- The term that you are searching for will be highlighted in the text
- There may be more than one result for your search, if this is the case Hit Enter until you find the correct example

3. The third search is very close to the second but with a twist. Bring up the Formula Handbook:

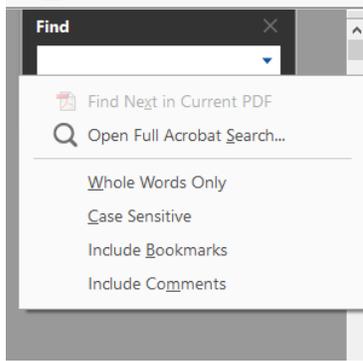

- Right Mouse Click. When a pop-up displays select Find (see red arrow)

<p>ALFAMINO INFANT (Nestle Health Science) USE: A nutritionally complete <u>infant formula</u> (amino-based, hypoallergenic) intended for <u>infants with cow's milk protein allergy, multiple food allergies and malabsorption/maldigestion, eosinophilic GI disorders and short bowel syndrome</u>. Contains DHA and ARA. Contains free amino acids. Lactose-free and gluten free. Per 100 kcals (5 fl oz): 2.8 g pro, 5 g fat, 11 g CHO, 1.8 mg iron Osmolality: 330 mOsm/kg CAUTION: Use as directed by a healthcare professional.</p>	Approved with Medical Documentation form.	14.1 oz (400 g) can powder 6 cans/case Reconstituted: 94 fl oz Standard dilution 20 kcal/ fl oz 1 (4.7g) unpacked level scoop added to 1 fl oz water makes 1 fl oz	Protein (11% kcals) - Free amino acids, L-Carnitine Fat (45% kcals) - MCT, (vegetable oils: Soybean oil, high oleic sunflower and high 2-palmitic vegetable oil) m. Alpina oil, C. Cohnii oil CHO (44% kcals) - Corn syrup solids, Potato starch, maltodextrin
<p>ALFAMINO JUNIOR (Nestle Health Science) USE: A nutritionally complete <u>medical food</u> (Nutritional- amino-based, hypoallergenic) Intended for <u>children ages 1-13 with cow's milk protein allergy, multiple food allergies and malabsorption and short bowel syndrome</u>. Contains Per 240kcal (8oz) 7.8 g pro, 10 g fat, Osmolality: 590 mOsm/kg CAUTION: Use as directed by a health Applied Nutrition Corporation -has State Office for clarification if a pre Website for more information on th http://www.medicalfood.com/prodi Pure Amino Acid Power #0120A L-Arginine #0130G Glycine #0140I L-Isoleucine #0150L L-Leucine #0160T L-Tyrosine #0170V L-Valine</p>	Approved with Medical Documentation form.	14.1 oz (400 g) can powder 6 cans/case Reconstituted: 62 fl oz Standard dilution 30 kcal/ fl oz 3 (5.2g) unpacked level scoops added to 2 fl oz water makes 2.5 fl oz	Protein (13% kcals) - Free amino acids Fat (38% kcals) MCT, Soybean oil, mono and diglycerides CHO (49% kcals) - Corn syrup solids, Potato starch, Maltodextrin

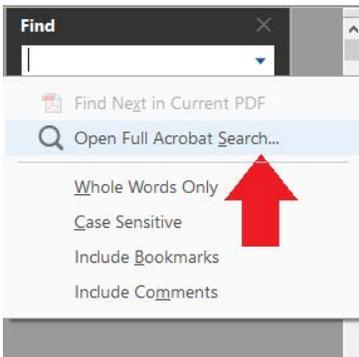

- This should display in the upper right hand corner of the PDF document
- Click on the dropdown arrow

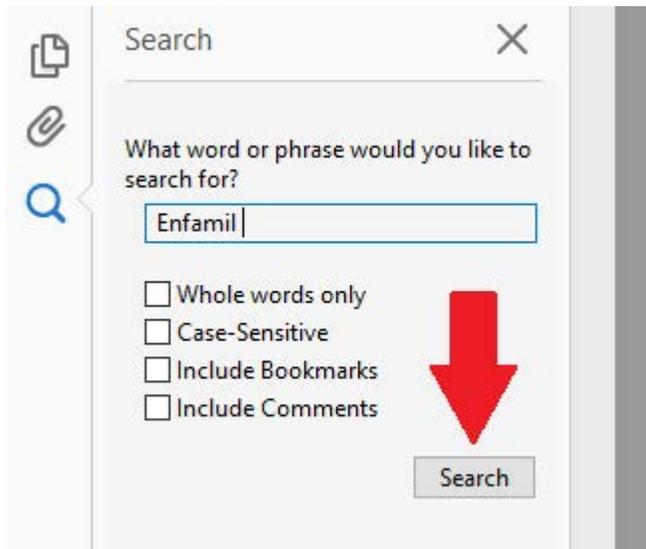

- This pop-up allows the user to choose different methods for the search

- Click on Open Full Acrobat Search

- A box on the left side of the screen will display.
- Enter the Search term.
- Click on Search.

- This view will display
- To select/move to a different instance of the search term click on a line item
