

## Summary of Nutrition Risk Criteria (NRC) Revisions ID WIC Program: Effective Oct. 1, 2018

---

### RISK 142 Preterm

- Title changing to **142 Preterm or Early Term Delivery**
- Definition expanding to include “early term delivery” - baby born greater than or equal to ( $\geq$ ) 37 weeks gestation and less than ( $<$ ) 39 weeks gestation
- **WISPr will automatically assign risk 142** when baby is born less than ( $<$ ) 39 weeks gestation
- Justification and references are being updated
- **Implications for WIC Services is a new section** with counseling guidance and considerations
- WISPr will continue to generate an **automatic RD referral**

### RISK 311 History of Preterm Delivery

- Title changing to **311 History of Preterm or Early Term Delivery**
- Definition expanding to include “early term delivery” - infant born greater than or equal to ( $\geq$ ) 37 weeks gestation and less than ( $<$ ) 39 weeks gestation
- Justification and references are being updated
- **Will be manually assigned for pregnant women** with any stated history
- **WISPr will automatically assign risk 311 for breastfeeding/postpartum women** if certification information entered includes the due date and birth date ( $<$  39 weeks gestation). **Otherwise it can be manually assigned** for any stated history.
- **Implications for WIC Services is a new section** with counseling guidance and considerations

### RISK 383 Neonatal Abstinence Syndrome

- **New risk criterion**
- **Will require a diagnosis by a physician** or someone working under a physician’s orders
- Risk 383 will be **manually assigned**
- WISPr will generate an **automatic RD referral**

### RISK 411 Inappropriate Nutrition Practices - Infant

- Definition is expanding for 411 (411.5 and 411.9) to include “Donor breast milk acquired directly from individuals or the internet”
- Justification and references are being updated
- Will be **manually assigned**

### RISK 425 Inappropriate Nutrition Practices - Child

- Definition of 425 (425.5) is changing to **remove “Undercooked or raw tofu”**
- Risk will **no longer be assigned because of eating undercooked or raw tofu**
