

# VFC Update

Idaho's Vaccines for Children Program

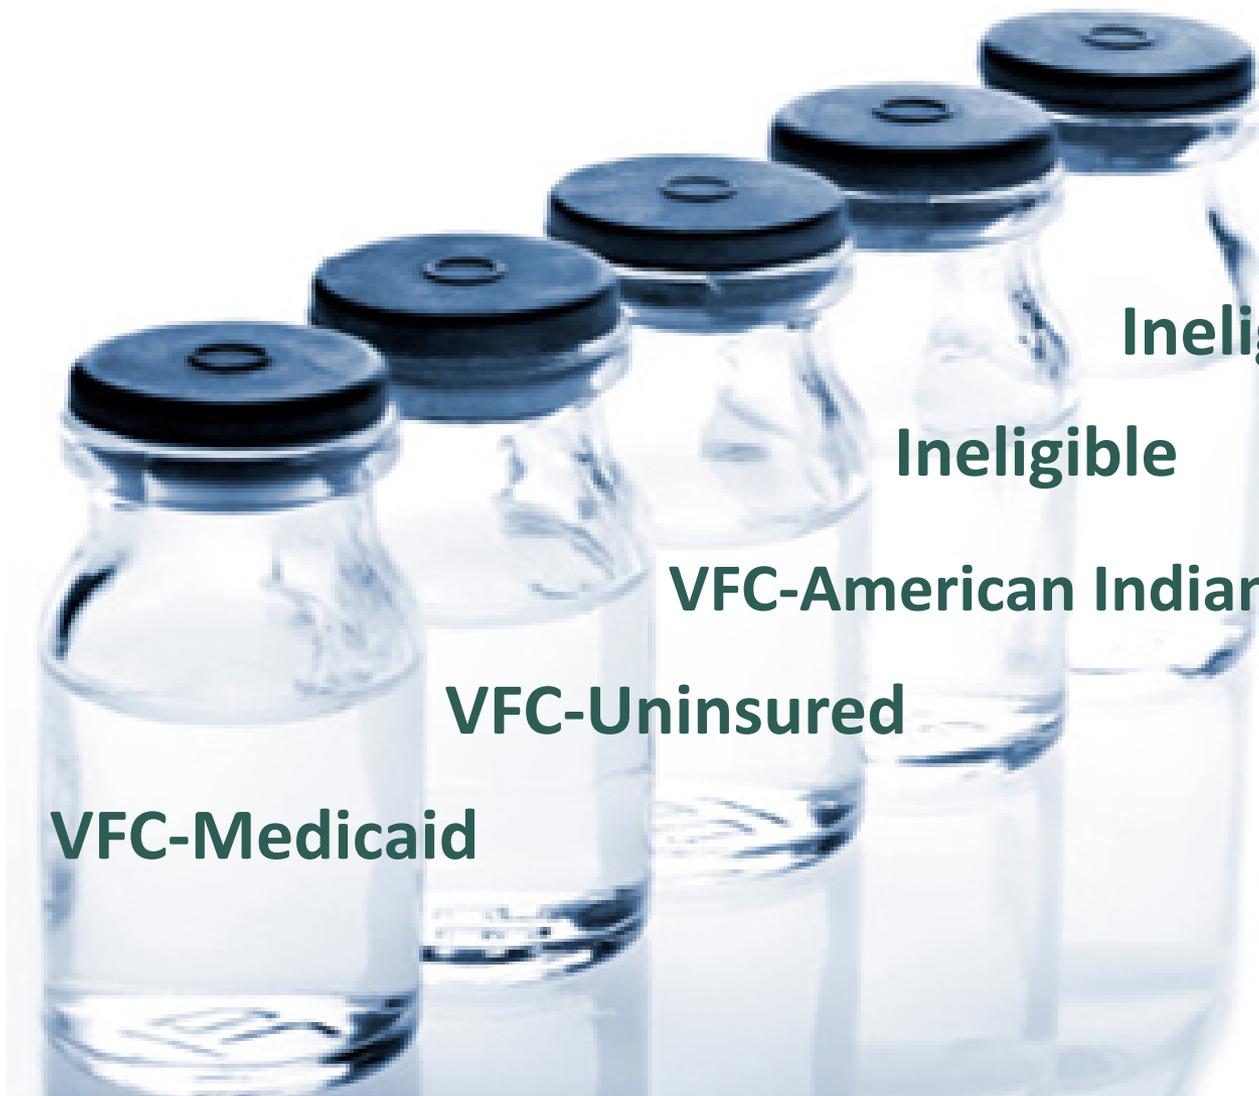

# What's New:

---

## 2017 Provider Policies and Guidelines

**VFC-Medicaid**

**VFC-Uninsured**

**VFC-American Indian**

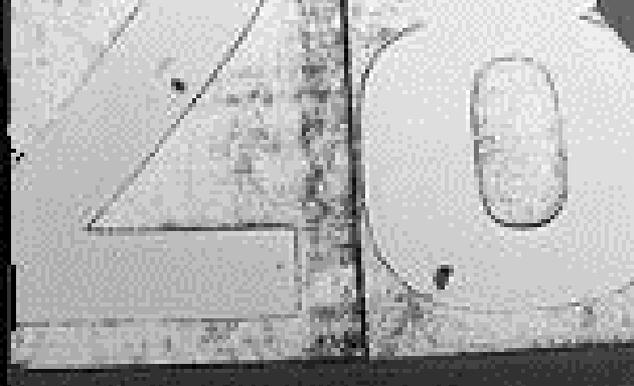

**Ineligible**

**Ineligible**

**VFC-eligibility = underinsured**

Days

# Temperatures

---

- Missing monthly temperature files = no processing of vaccine orders
- Out of range temperatures must be reported to the Idaho Immunization Program (IIP)
  - Even if your office uses PharmaWatch
- Temperature files must be in a readable format
  - .trg files cannot be opened by IIP staff

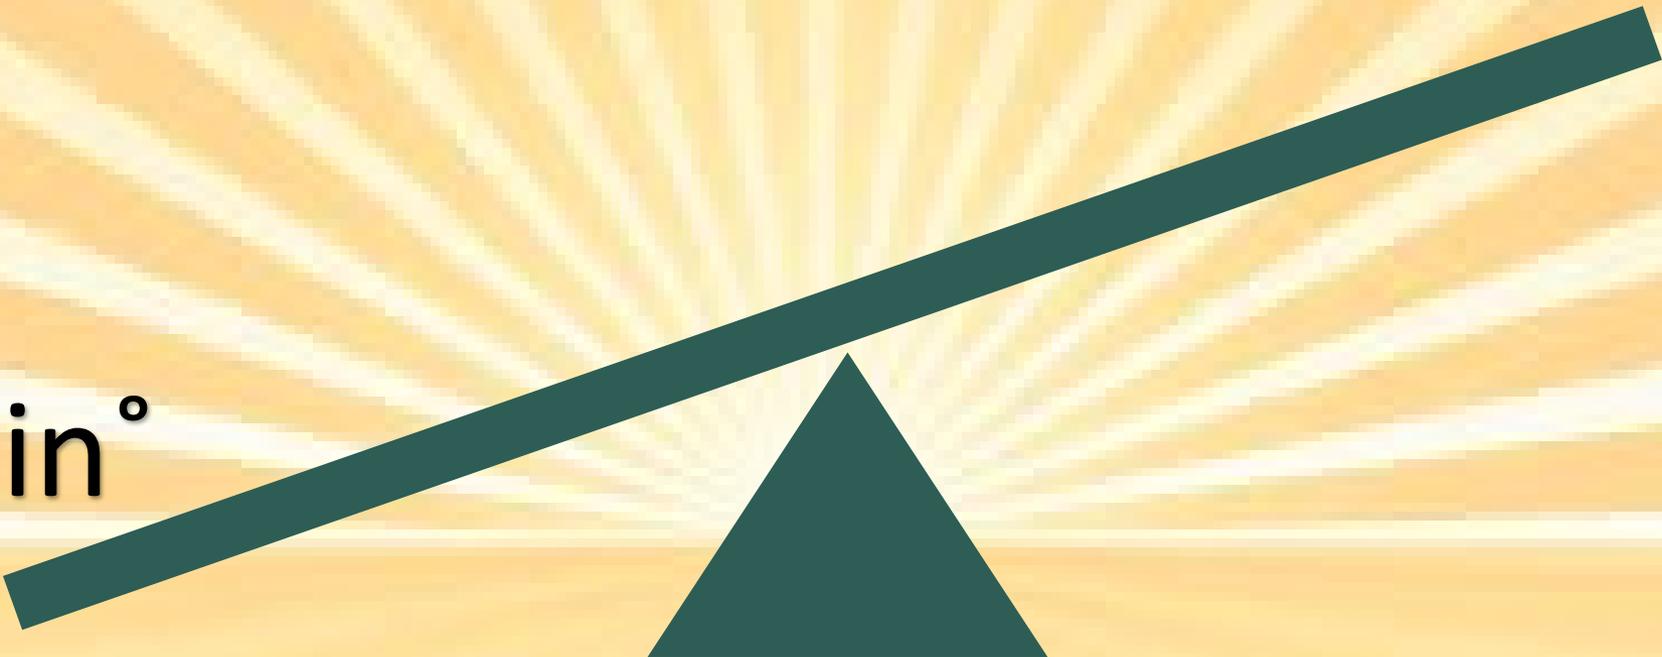

Min°

Max°

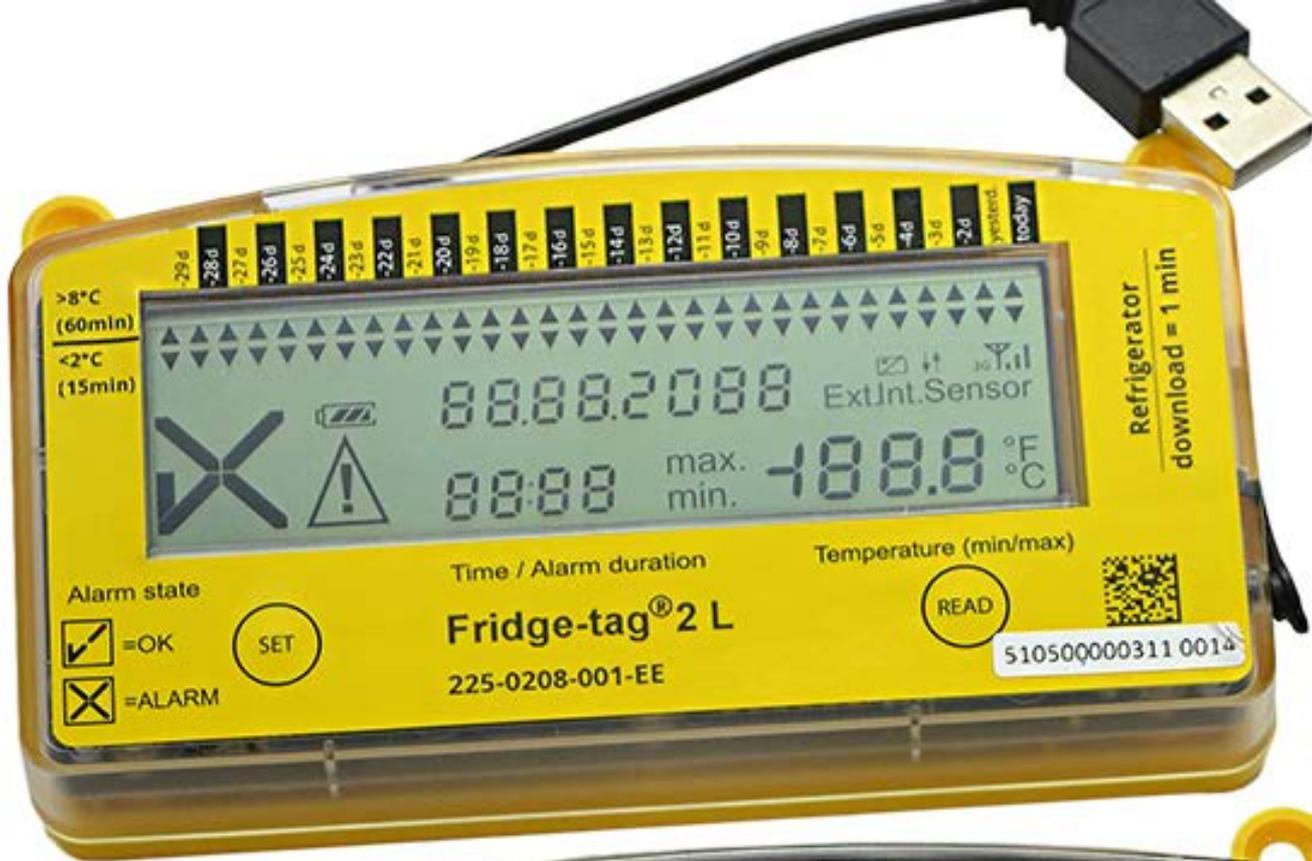

**Primary**

**Back-up**

Booster Shots

# New Temperature Monitoring Devices

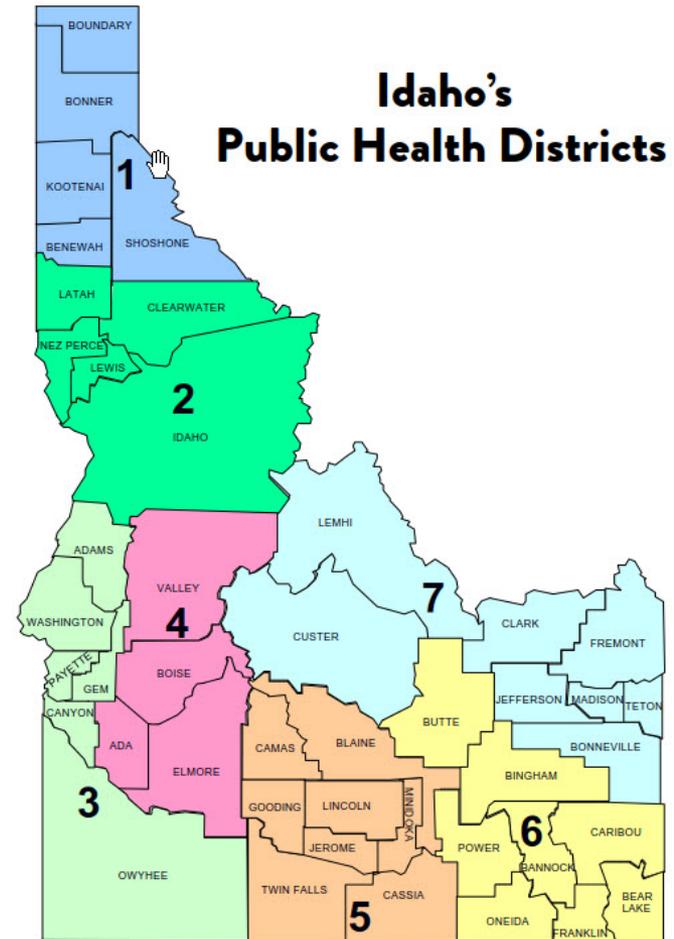

- Quickly access the minimum and maximum temperatures
- Preset alarms and temperature ranges
- No software to download
- Easy to read graph and list of temperatures in .pdf format

# Distribution

- Devices will be in offices by the end of 2017

- Plan
  - Districts 6 & 7
  - District 5
  - Districts 3 & 4
  - Districts 1 & 2

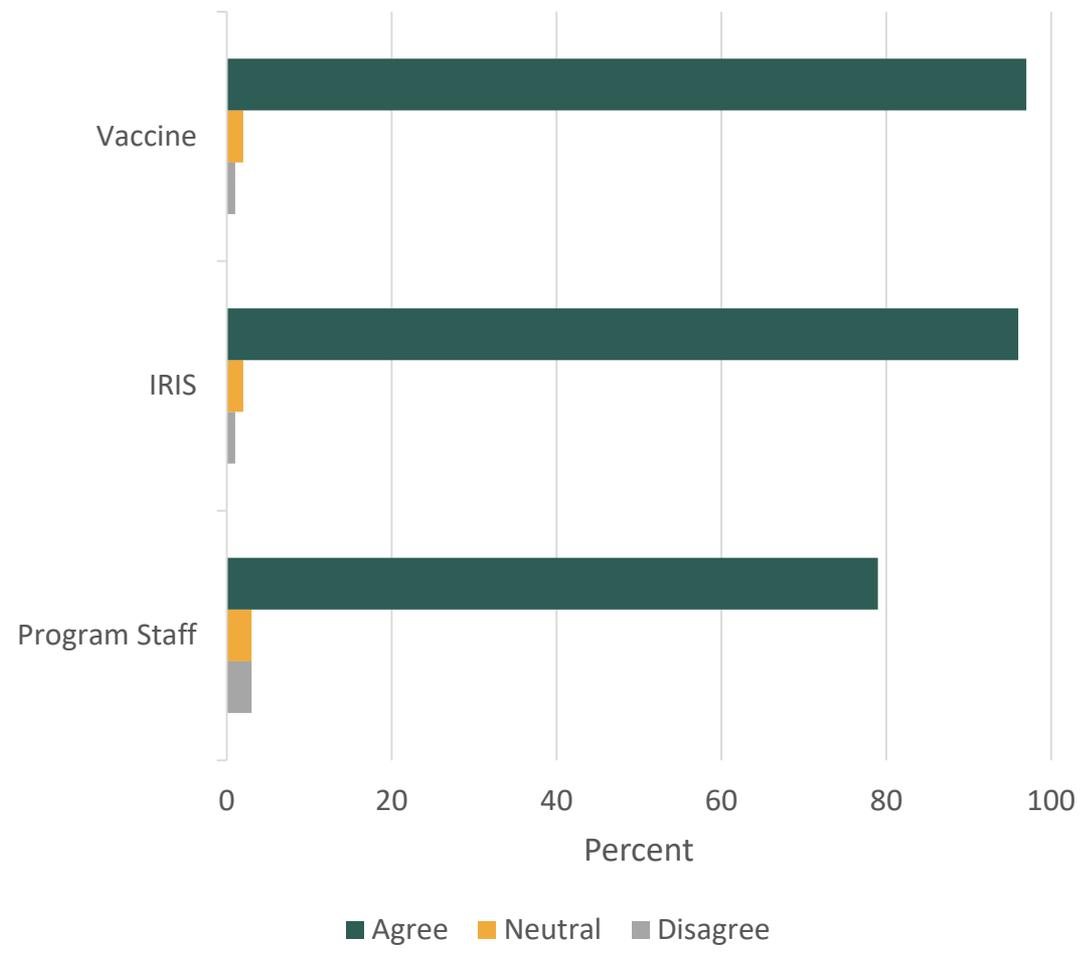

# 2017 Provider Satisfaction Survey

- Overall
  - Feel vaccines are beneficial
  - Believe IRIS to be a valuable tool
  - Satisfied with the program staff

# 2017 Provider Satisfaction Survey

- Areas for improvement
  - Providing better communication of training resources, specifically the IRIS training videos
    - Updated the IIP website making **Trainings** easier to locate
  - Working with partners to offer CEUs at Shot Smarts 2018
