

Title V Maternal & Child Health 2015-2020 Year State Action Plan

Systems-Building

Idaho MCH leadership developed a state action plan with specific objectives and strategies to address priorities within each MCH domain area during the needs assessment process. The following presents the priority needs and objectives for the Systems-Building domain area.

NPM = National Performance Measure

SPM = State Performance Measure

Priority Need: Improve maternal and child health population access to medical homes.

SPM 4: MCH Workforce Development – Number of health care providers and other professionals who serve MCH populations that receive training with the goal of improving delivery and quality of care.

Objective: By September 2020, increase MCH workforce capacity by increasing the number of health care providers and other professionals who participate in topical learning collaboratives.
