RIBHHN

Rural Integrated Behavioral
Health Hub Network

Overview RIBHHN Grant

Rural Integrated Behavioral
Health Hub Network (RIBHHN)

Overview Rural Integrated Behavioral Health Hub Network (RIBHHN)

RIBHHN's Consortium Members

- Southwest District Health (SWDH)
- Central District Health Department (CDHD)
- Valley Family Health Care (VFHC)
- Y Not Innovators

Overview Rural Integrated Behavioral Health Hub Network (RIBHHN)

RIBHHN Overarching Goal

- To build the existing Idaho Integrated Behavioral Health Network into an enduring structure for a set of three regional hubs that serve as capacity-building platforms for the systematic integration of behavioral health into rural primary care clinics and practices.

Overview Rural Integrated Behavioral Health Hub Network (RIBHHN)

RIBHHN Project Objectives

- Develop a Regional Hub demonstration project for integrated behavioral health workforce development and learning collaborative. The following objectives are captured in the responsibilities outlined in the MOU and in the individual partner contracts.

Create a workforce development program to train regional Behavioral Health Consultants to support the integration of evidence-based behavioral health techniques and team-based care in rural primary care settings,

Train a cadre of local content experts to provide technical assistance for regional primary care providers on evidence-based and best practices for clinical and administrative integration of behavioral health services,

Develop a region-wide Behavioral Health Internship program to recruit and train social workers, community health workers, and other allied health students to provide brief behavioral health interventions and services in primary care settings,

Design and implement a robust Learning Collaborative for each of the three regional hubs, utilizing the RIBHHN model.

Strategic
Planning

Stakeholders

Overview Idaho Integrated Behavioral Health Network (IIBHN) Core Goals

Overview Idaho Integrated Behavioral Health Network (IIBHN)

IIBHN Mission

- Local networks of IBHPs across the state of Idaho that facilitate sharing of best practices, promotion of integrated behavioral health, and are connected to a larger state guiding body that supports this vital healthcare role through technical assistance and advocacy.

IIBHN Leadership

- The current IIBHN leadership represents multiple organizations from across the state of Idaho who are committed to developing and sustaining a network of talented integrated behavioral health providers across the state, supported by local and state leadership.

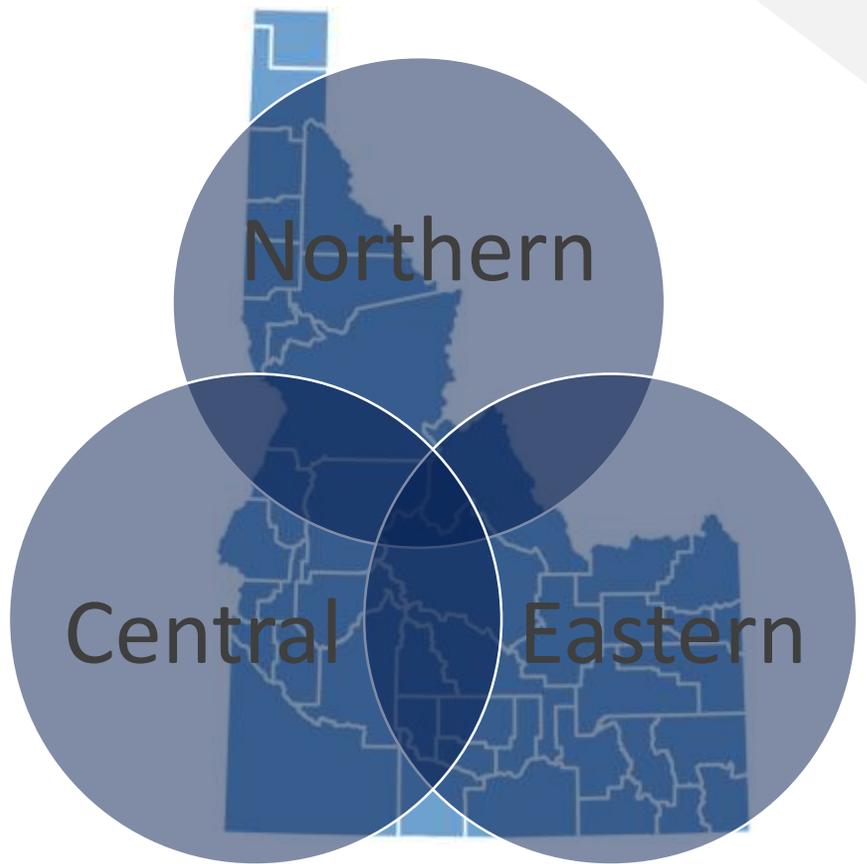

Overview Idaho Integrated Behavioral Health Network (IIBHN) Public Health District Hubs

Public Health District Hubs (“PHD Hubs”)

- Regional Learning Collaboratives provide a neutral space to pursue the group’s vision across the state.

PHD Hub Roles and Responsibilities as Conveners:

- Planning meetings
- Facilitating meetings
- Providing administrative support

Overview Idaho Integrated Behavioral Health Network (IIBHN) Regional & Statewide Trainings

Goal of creating state, regional, and local content experts to be mentors and educators across the state

Regional Trainings and Technical Assistance

- Clinical and Operational Trainings

Annual Statewide Conference (National & Local Presenters)

- Statewide Networking
- Research Trends
- Clinical Interventions
- Operational Implementations
- New team-based care partners and team members

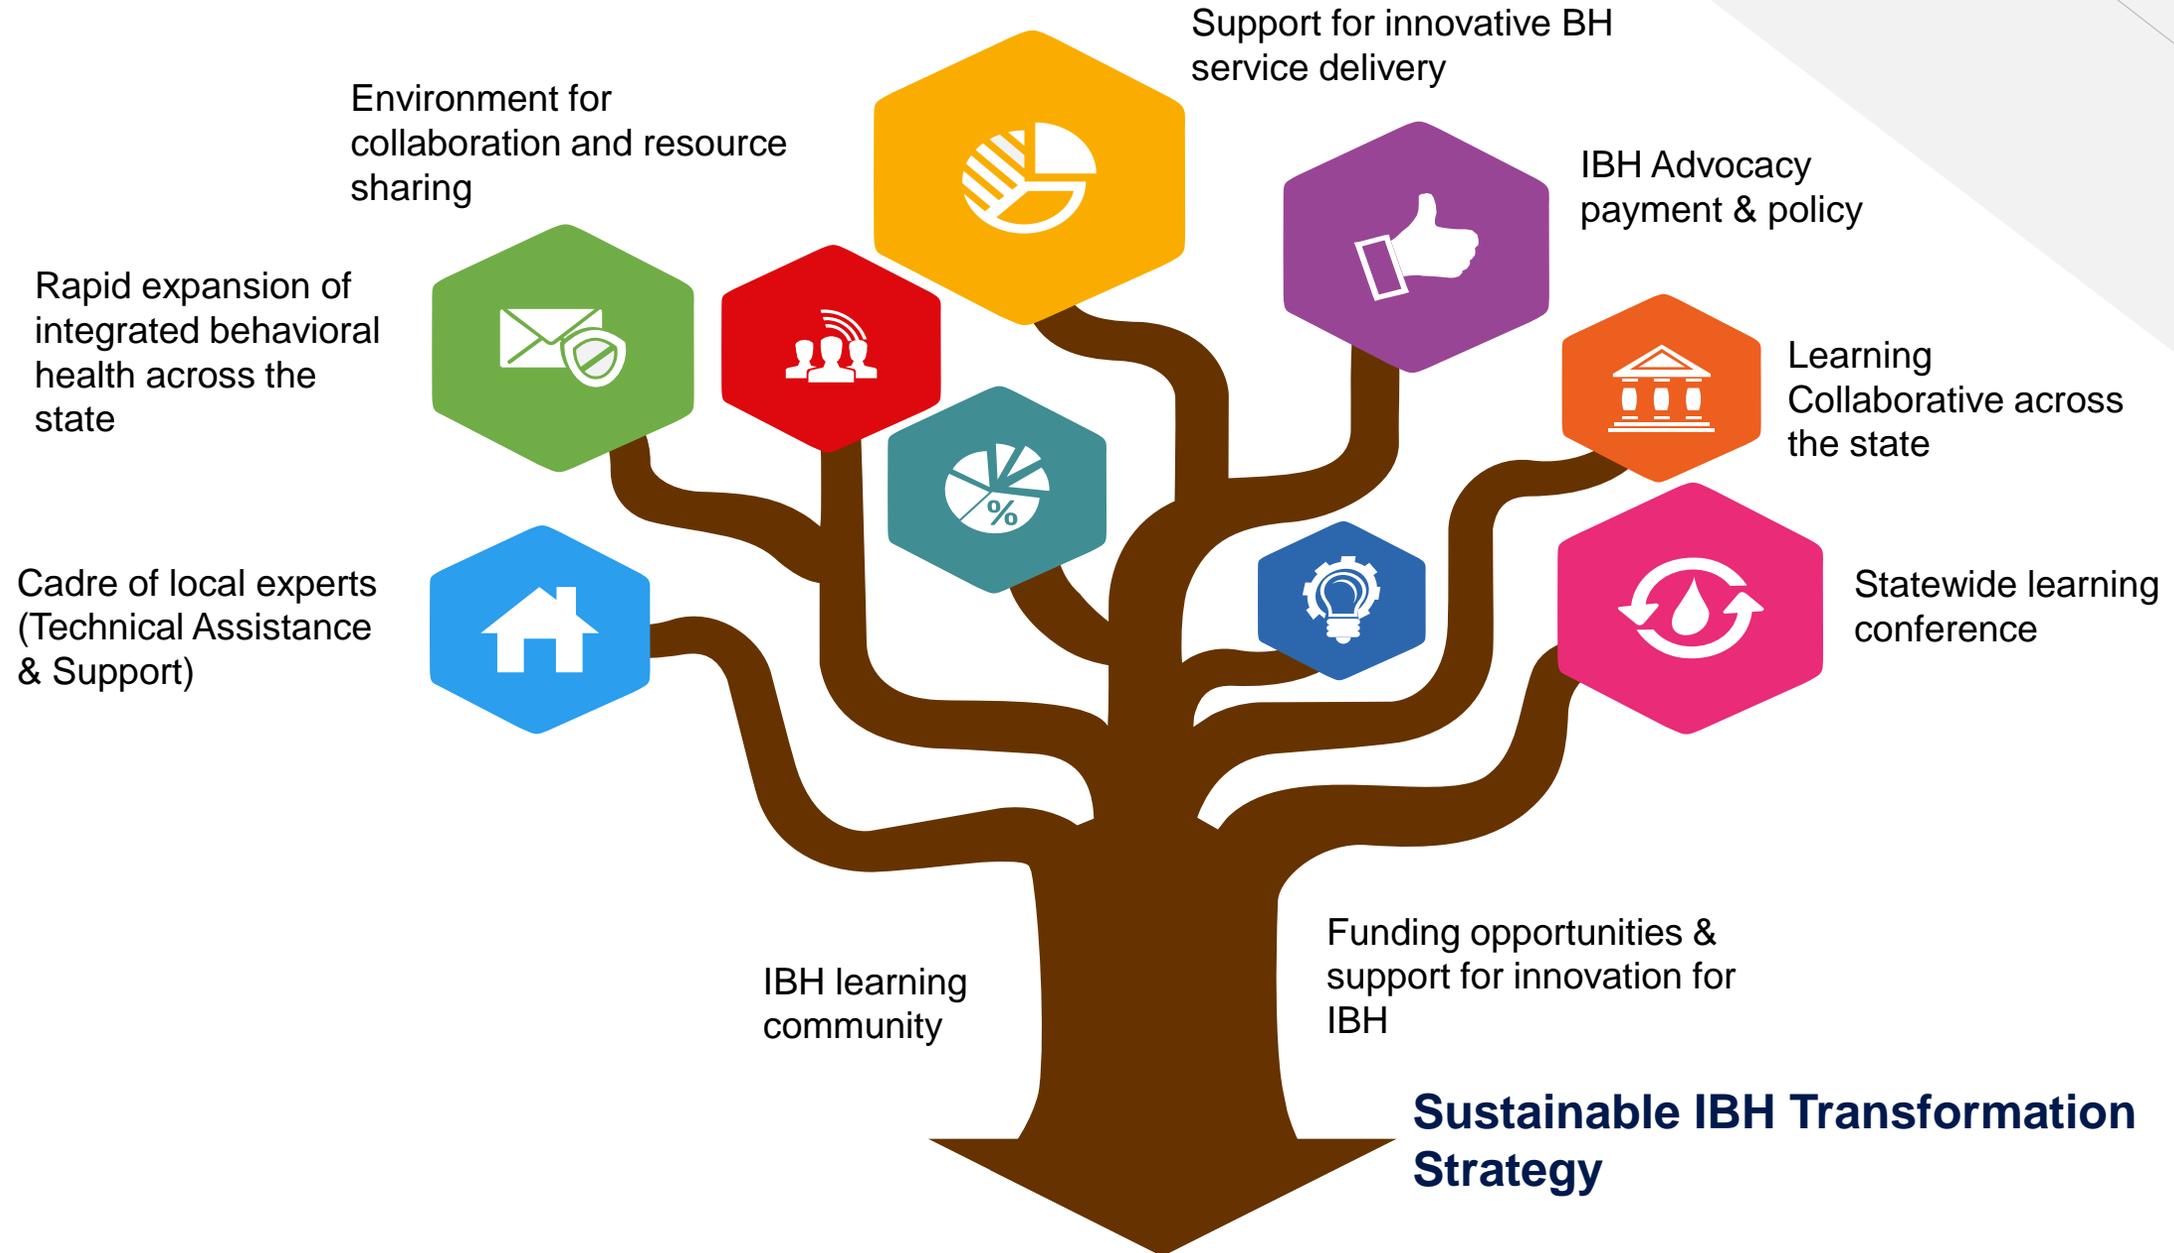

Overview Health Systems Roles for Transformation

Behavioral Health Strategies

- Trainings
- Coaching
- Technical Assistance for practice facilitation and systems transformation
- Value based contracting with Payers
- Funding support for behavioral health innovative
- Workforce Development (Professional Development/Internship Opportunities)

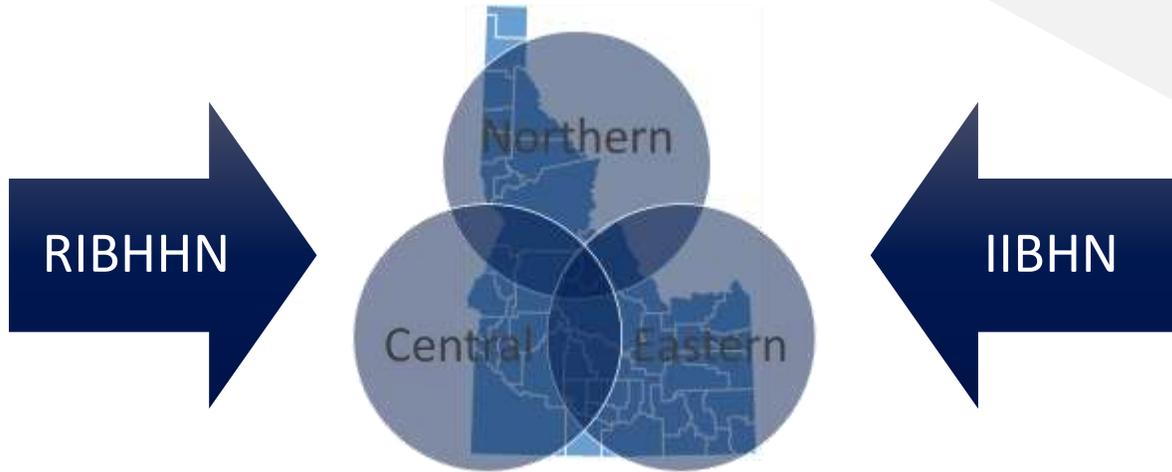

Overview Systems Transformation Outcomes

RIBHHN & IIBHN

Wrap-Up

- Remember the RIBHHN Goal:
 - To build the existing Idaho Integrated Behavioral Health Network into an enduring structure for a set of three regional hubs that serve as capacity-building platforms for the systematic integration of behavioral health into rural primary care clinics and practices.
