Integrates other treatments as appropriate

**Verbalizes Reassessment and Continued Management**

**Verbalizes Documentation and Report**

**Verbalizes preparation/readiness for intubation**

**Total Steps Passed**

**Minimum steps needed to pass (assuming no critical fails below)** 18

**Critical Criteria (Automatic Fail)**

______ Initial assessment not performed or performed in an inadequate manner

______ Failure to verbalize inclusion/exclusion criteria

______ Failure to adequately maintain Airway, Breathing, or Circulation at any time throughout the scenario

______ Inappropriate treatment(s) performed (dose of CPAP, etc)

______ Failure to assemble O2 in a safe manner

______ Failure to correctly assemble and apply CPAP

______ Failure to complete the assessment in a timely manner

______ Failure to recognize complications/need for intubation

**Final Score (circle one)**

**Pass**

**Fail**
