Executive Summary

Resulting in a law passed in the 1999 Legislative session, the Emergency Medical Services (EMS) and Preparedness Bureau was charged with the responsibility of distributing funds to qualifying EMS agencies for assistance in purchasing vehicles and equipment. Application information includes data points which, when evaluated and scored, give priority to agencies with larger proportions for volunteer personnel, larger response areas, and fewest existing resources.

§56-1018B EMERGENCY MEDICAL SERVICES ACCOUNT III. (1) There is hereby created in the dedicated fund of the state treasury an account known as the emergency medical services account III. Subject to appropriation by the legislature, moneys in the account shall be used exclusively for the purpose of acquiring vehicles and equipment for use by emergency medical services personnel in the performance of their duties which include highway safety and emergency response to motor vehicle accidents.

The EMS Account III Grant has now completed its seventeenth year of providing funds for EMS vehicles and patient care equipment throughout the state of Idaho. Funds are collected from driver’s license and renewal fees, accruing slightly different amounts annually. To apply for a grant award, the agency must be either governmental or a registered non-profit agency. Of the 181 licensed Idaho EMS agencies, all but 15 are eligible to apply.

The EMS Account III Grant awards enable Idaho EMS agencies to acquire vehicles and patient care equipment for their communities in which they might not have been able to afford on their own. Ambulances, rescue/extrication vehicles, cardiac monitoring equipment, automated external defibrillators (AED), extrication equipment, communication equipment (radios and pagers), and many other items have all been funded through this grant program. From FY2014 – FY2018, forty-nine ambulances and non-transport vehicles have been funded. Equipment items typically requested pertain to: airway management, cardiac monitoring, defibrillation, communication, extrication, patient assessment, patient moving, rescue, safety, spinal immobilization, safety, and vital signs monitoring.

The distribution of funds awarded is reported by year, from FY2014 – FY2018 (see Table 1). Following the Executive Summary, various maps, figures, and tables will show: vehicle requests and awards; equipment requests and awards; monetary amounts requested and awarded per fiscal year; and the requests made by the agency and/or county.

Table 1. Distribution of Funds: FY2014 – FY2018

EMS Account III Grant Data	FY2014	FY2015	FY2016	FY2017	FY2018
Total Funds Requested for Vehicles and Equipment	\$2,475,671	\$2,586,583	\$2,947,140	\$2,818,614	\$2,944,434
Total Funds Awarded	\$1,333,533	\$1,196,410	\$1,338,549	\$1,400,000	\$1,400,000
# of Vehicles Requested	21	26	25	23	17
# of Vehicles Awarded	11	11	11	9	7
# of Agencies Requesting Vehicles and Equipment	52	53	51	61	78
# of Agencies Awarded Funds for Vehicles and Equipment	46	40	47	55	64

Overview

The graphs on the following pages show the dollar amount of vehicle and equipment requests and awards for grant cycles FY2014 - FY2018. The percentage of requests we have been unable to fund is also shown. The lower cost of equipment compared to the higher cost of emergency vehicles allows for a larger quantity of equipment requests to be funded.

The Account III Grant is funded by a \$1 per year fee on each Idaho driver's license. Total grant funds for the FY2018 for vehicles and equipment was \$1,400,000. The total amount requested was \$2,944,434. The available grant funds were allocated 50% (\$700,000) for vehicle awards and the remaining 50% (\$700,000) for equipment awards. The difference between the total amount requested and the total amount awarded for vehicles and equipment was \$1,544,434.

For the FY2018 grant cycle, equipment requests totaled \$1,147,072. Awarded equipment funding totaled \$700,000. The difference between requests and awards totaled \$447,072. Sixty one percent of equipment requests were awarded and dispersed over fifty-seven agencies. This year, awards of cardiac monitors, extrication kits and spreaders, power gurneys, power gurney load systems, six-wheel transport device, and a wheeled lifter, consumed 85% of all equipment funds, leaving 15% of the funds available to award the remaining equipment items.

Vehicle requests for the FY2018 grant cycle totaled \$1,797,362 and awards totaling \$700,000 were disbursed. The difference between requests and awards totaled \$1,097,362. Of the 17 agency vehicle requests, seven agencies or 41% of agency's requests were granted. If an agency has need for added vehicle features, such as four-wheel drive, the cost for the vehicle is significantly increased and impacts the ability to award grants for other requests. The full allowable amount ranges from \$65,000 for a non-transport medical rescue to \$125,000 for an ambulance.

Ambulances generally cost more than non-transport medical rescue or extrication vehicles. Although a significant number of aging vehicles have been replaced during the seventeen years of the EMS Account III Grant program, emergency vehicles continue to be a substantial request due to population growth, increased incident response, vehicle failure (accidents and breakdowns) and the ever-rising costs of these emergency vehicles.

Five Year Account III Vehicle Requests and Awards by County (FY2014-FY2018)

EMS Account III Grant Vehicle Funds Awarded and Disbursed by County for FY2014-FY2018

Medical rescue vehicles are non-transport EMS vehicles, ambulances are transport vehicles, and rescue/extrication vehicles respond to provide non-transport EMS, rescue, and extrication services.

Table 3. Vehicle Awards and Disbursement: FY2014

FY2014			
County	EMS Agency Awarded	\$ Awarded and Disbursed	Type
Bannock	Bannock County Ambulance District	\$121,000	Ambulance
Benewah	Gateway Fire Protection District	\$62,725	Ambulance
Benewah	Tensed Ambulance Service	\$100,000	Ambulance
Bonner	Priest Lake Emergency Medical Technicians, Inc.	\$108,500	Ambulance
Cassia	Albion Quick Response	\$37,966	Modified SUV
Clearwater	Clearwater County Ambulance	\$121,000	Ambulance
Idaho	Kooskia Ambulance	\$118,500	Ambulance
Idaho	Syringa General Hospital Ambulance	\$108,500	Ambulance
Kootenai	Worley Ambulance Association (Awarded, funded, and returned due to agency retirement – amount not included in total)	\$111,000	Ambulance
Shoshone	Shoshone County EMS Corporation dba Shoshone County EMS System	\$116,000	Ambulance
Teton	Teton County Sheriff's Search & Rescue	\$61,500	Modified Truck
Total		\$1,066,691
