The facility is a single-story, type V (III) structure constructed in 2019 totaling approximately 39,751 square feet. The facility is equipped with a full NFPA 13 fire suppression system, wet and dry, interconnected to a complete fire alarm system with audible and visible notification devices. The Essential Electrical System is supplied by a 200 KW diesel powered, on-site automatic generator which provides emergency lighting throughout. Currently the facility is licensed for 52 SNF/NF beds and had a census of 2 on the date of the survey.

The facility was found to be in substantial compliance during the initial fire/life safety survey conducted on January 9, 2020. The facility was surveyed under the LIFE SAFETY CODE, 2012 Edition, New Health Care Occupancy, in accordance with 42 CFR 483.70.

The Survey was conducted by:

- Linda Chaney
  Health Facility Surveyor
  Facility Fire Safety and Construction
- Nate Elkins
  Supervisor
  Facility Fire Safety and Construction

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
