Intermediate Care Facility for Persons with Intellectual Disabilities (ICF/ID) Bed Capacity Changes

What is an ICF/ID bed capacity?
In accordance with the State Operations Manual, Chapter 2, Section 2138C an ICF/ID must serve 4 or more individuals.

Additionally, Idaho State Rules state the following:

- IDAPA 16.03.11.020 requires all ICFs/ID to be licensed.
- IDAPA 16.03.11.021.03 states the maximum size of ICF/ID must be no more than fifteen (15) beds

Therefore, each ICF/ID in Idaho must have between 4 and 15 licensed beds. The number of licensed beds in a facility is referred to as the licensed bed capacity.

How do I request a change in licensed bed capacity?

For Temporary Increases:
IDAPA 16.03.11.030.02 states each license must specify the maximum allowable number of beds in each facility, which number cannot be exceeded, except on a time-limited emergency basis, with the authorization of the Department. For temporary increase in bed capacity please follow the “Waiver Request” process on this web site.

For Permanent Decreases and Increases:
All requests for a change in licensed bed capacity must submitted in writing. The following information needs to be submitted with your request;

Permanent Decreases:
The request needs to identify the effective date and the number of beds the facilities wants licensed (cannot be less than 4).

Permanent Increases:
The request needs to identify:
- The requested number of licensed beds (maximum of 15)
- A description of the circumstances/reasons the increase is being requested
- Evidence demonstrating the facility’s structural capacity to facilitate a bed increase (i.e. room and window dimensions, closet space parameters, etc.)
- Evidence demonstrating the facility’s capacity to meet the needs of the number of individuals reflected in the increase (i.e. ensuring additional staff are available, ensuring other safety measures are in place, etc.)
- The requested effective date of the increase
