Voice
Matters

I feel like people
Shouldn't get cancer or the
things wrong with them
all the time it should
be a free place they should
be free and not have to
go through this stuff.
I pray for everyone
in a bed, wheelchair
or like crutches♡

I hope every-
body gets

Help get people
with cancer
get cured

Voice

great poemes

The woods are
lovely, dark and
deep, but I have
promises to keep
And miles to go before
I Sleep

Dreams

Hold fast to dreams
for if dream die Life
is a broken-winged bird that
cannot fly. Hold fast to dreams for
When dreams go life is a barren
field frozen with snow.

When you were born

on the night you were born the
moon smiled with such wonder that the
stars pecked in to see you and the night
wind whispered Life will never be the same.
