

Idaho Medicaid

Three-Month Maintenance Supply Drug List

Idaho Medicaid will pay for a three (3) month supply of the following medications once a participant has been stable on the same strength and dose of the medication for a minimum of 60 days.

Treatment Class	Drug Class	Preferred/Example Agents
Alzheimer's Disease Treatment	Alzheimer's Drugs	donepezil memantine
Benign Prostatic Hyperplasia (BPH) Treatment	Alpha Blockers	alfuzosin doxazosin tamsulosin terazosin
Cardiac Drugs	Beta/Alpha Adrenergic Blockers	carvedilol labetalol
	Cardiac Glycosides	digoxin
	Coronary Vasodilators	hydralazine
	Nitrates and Nitrites	isosorbide dinitrate, mononitrate nitroglycerin
	Potassium Supplements	All Medicaid Covered Agents
Cystic Fibrosis	Pancreatic Enzymes	Creon Zenpep
Diabetes Treatment	Dipeptidyl peptidase-4 (DPP-4) Inhibitors	Januvia (sitagliptin) Tradjenta (linagliptin)
	Glucagon-like Peptide (GLP-1) Agonists	Bydureon (exenatide ER) Byetta (exenatide) Victoza (liraglutide)
	Insulins	Humalog (insulin lispro) Humalog Mix (insulin lispro/lispro protamine) Humulin (insulin) Lantus (insulin glargine) Levemir (insulin detemir) Novolog (insulin aspart) Novolog Mix (insulin aspart/aspart protamine)
	Metformins	glyburide-metformin metformin metformin ER (for Glucophage XR)
	Sodium-glucose Cotransporter-2 (SGLT-2) Inhibitors	Farxiga (dapagliflozin) Invokana (canagliflozin) Jardiance (empagliflozin) Synjardy (empagliflozin/metformin)

Treatment Class	Drug Class	Preferred/Example Agents
Hyperlipidemia Treatment	Bile Acid Sequestrants	cholestyramine colestipol
	Cholesterol Absorption Inhibitors	ezetimibe
	Fibrates	fenofibrate (for TRICOR) gemfibrozil
	Statins	atorvastatin lovastatin pravastatin rosuvastatin
Hypertension Treatment	ACE Inhibitors	benazepril enalapril lisinopril ramipril
	ACE Inhibitor/Diuretic Combinations	benazepril/HCTZ enalapril/HCTZ lisinopril/HCTZ
	Angiotensin Modulator/Calcium Channel Blockers	benazepril/amlodipine valsartan/amlodipine
	Angiotensin Receptor Blockers	irbesartan losartan valsartan
	Angiotensin Receptor Blockers/Diuretic Combinations	irbesartan/HCTZ losartan/HCTZ valsartan/HCTZ
	Antihypertensives, Sympatholytics	clonidine guanfacine
	Beta Blockers	atenolol bisoprolol metoprolol XR propranolol propranolol ER sotalol
	Beta Blocker/Diuretic Combinations	atenolol/chlorthalidone bisoprolol/HCTZ
	Calcium Channel Blockers	amlodipine diltiazem diltiazem ER nifedipine ER verapamil verapamil ER
	Diuretics	furosemide thiazides spironolactone

Treatment Class	Drug Class	Preferred/Example Agents
Mental Health Disease Treatment	Second Generation Antipsychotics	aripiprazole clozapine Fazaclo (clozapine ODT) Latuda (lurasidone) olanzapine olanzapine ODT quetiapine quetiapine XR risperidone (all oral formulations) ziprasidone
	Serotonin/Norepinephrine (SNRI) Inhibitors	bupropion duloxetine mirtazapine trazodone venlafaxine
	Selective Serotonin Reuptake (SSRI) Inhibitors	citalopram escitalopram fluoxetine fluvoxamine sertraline
Osteoporosis Treatment	Bisphosphonates	alendronate
Parkinson's Disease	Antiparkinsonian Agents	benztropine bromocriptine pramipexole ropinirole
Respiratory Disease Treatment	COPD Agents	albuterol/ipratropium Atrovent (ipratropium) Bevespi (glycopyrrolate/formoterol) ipratropium Spiriva (tiotropium) Stiolto (tiotropium/olodaterol)
	Glucocorticoids, inhaled	Advair (fluticasone/salmeterol) Asmanex (mometasone) Flovent (fluticasone) Pulmicort (budesonide) Symbicort (budesonide/formoterol)
	Leukotriene Modifiers	montelukast
Vitamins and Minerals	Vitamins and Minerals	Vitamin B-12 Vitamin D 50,000 units folic acid iron
	Pre-Natal Vitamins	All Medicaid Covered Preferred Agents
