Subject: Pharmacy and therapeutics committee [External Email]

Attn: Tami Eide,

I am writing this in regards to upcoming consideration for formulation change for Medicaid. I am hoping that you would take Ajoy into consideration to add to the Idaho Medicaid formulary. I have had great experience with this medication and I feel as though it is unique in his class. It would allow me to have an exceptional alternative to other currently covered medications in this class. As you know this medication is the only 1 in his class that can be administered quarterly which speaks to its efficacy as well as tolerability convenience and compliance. Any consideration in this matter would be greatly appreciated. If you have any questions for me please do not hesitate to contact me.
