Training Evaluation Information Sheet

In order to receive training hours for attending training, child care providers must complete the Training Evaluation. **Note:** This online evaluation should be completed as soon as attendance is entered by the trainer. You will receive an email when the evaluation is available. Your training hours will be automatically added to your IdahoSTARS Training Log once your training evaluation is submitted online and all other requirements for the training are complete. The IdahoSTARS Training Office will email your certificate to you upon completion of the training requirements.
